Acknowledgements

I would like to thank Ellen O'Neill, who motivated me to complete this work. I am so thankful to Claire Nissenbaum M.A. F/AOGP who encouraged me to take the ASDEC training and who continues to inspire my work.

I also want to thank my ASDEC colleagues who have helped me with the production of this manual: Traude Smith (CALT), Laurie Maloney (CALT). Thanks also to Rujuta Pandya and Patricia Craighill who created some of the pictures used for development of some of the learning modules in the book, and to Leah Moloney for help with the cover design.

I am so thankful to my parents, especially my dad who has been a constant source of encouragement to me. Last but not least, this book would not have been possible without the tremendous support and love of my husband Raju, and my children Nisha and Neal.

Introduction

The objective of the K-Reading Kickstart program is to provide a strong foundation in reading, writing, and comprehension to young learners, and moreover, to identify learners with reading difficulties and other comprehension issues.

Phonological awareness is **the** key predictor of reading in young children. Research shows that concrete phonological skills develop strong reading skills. Phonological awareness is a broad term that incorporates several skills. It is the ability to hear and manipulate the sound structure within words, i.e. recognize that language is made up of words, syllables, rhymes, and sounds (phonemes). This knowledge occurs in oral language initially. It is a critical aspect of early literacy development and is linked to the attainment of reading, comprehension, and spelling. According to National Research Council (Snow, Burns, & Griffin, 1998) and National

Reading Panel (NICHD, 2000) the critical components for teaching young children to read are:

- Phonemic awareness;
- Phonics;
- Vocabulary development;
- Reading fluency, including oral reading skills;
- Reading comprehension strategies.

Multisensory approach involves the use of Visual (seeing), Auditory (hearing), Kinesthetic (movement), and Tactile (touching) (VAKT) simultaneously to teach reading, writing, and spelling. All students

benefit from this type of learning. Children process information differently and this method allows them to use a variety of their senses to understand and process information (Orton-Gillingham approach).

Multisensory Structured Language Education (MSLE) – also based on the work of Orton-Gillingham - teaches the structure of language by using multisensory method. The principles of MSLE program, as explained in the Multisensory Structured Language Teaching Fact Sheet from the International Dyslexia Association (IDA) are:

- Simultaneous, Multisensory (MS): Teaching uses all learning pathways in the brain i.e., visual, auditory, kinesthetic, tactile (VAKT) simultaneously or sequentially in order to enhance memory and learning.
- Systematic, Cumulative: the organization of material follows the logical order of the language. The sequence must begin with the easiest and most basic concepts and progress methodically to more difficult material. Each concept must also be based on those already learned. Concepts taught must be systematically reviewed to strengthen memory.
- Direct instruction: The inferential learning of any concept cannot be taken for granted. Multisensory language instruction requires direct teaching of all concepts with continuous student-teacher interaction.
- Diagnostic teaching: The teacher must be adept at prescriptive or individualized teaching. The teaching plan is based on careful and continuous assessment of individual needs. The content presented must be mastered step by step to the degree of automaticity.

-
- Synthetic and Analytic instruction: Synthetic instruction presents the parts of the language and then teaches how the parts work together to form a whole. Analytic instruction presents the whole and teaches how this can be broken down into its component parts.

Multisensory Structured Language Education and MS techniques typically used in a Montessori classroom, can work together to enhance beginning reading skills in preschool and kindergarten children. Since the Montessori method is systematic and multisensory, it blends well with MSLE to provide optimal results for early literacy development.

In a Montessori classroom, introduction to sandpaper letters is the first multisensory exercise in preparation for reading and writing. The purpose of these sandpaper letters is to learn the name, sound, and shape of the letters. It also helps to gain muscular memory of the shape of the letters as a precursor to writing. Tracing different geometric shapes, writing on chalk chalkboard, and learning the different lines used in letters, are also taking place at this time getting the child ready for writing letters and words. Writing practice thus begins through tactile kinesthetic feedback from tracing shapes and sandpaper letters. Concurrently, there is also learning of the sounds associated with the letters, and with time the identification of sounds in words also begins. Children move through writing to reading and begin to manipulate the letters to sound and spell word patterns beginning with closed syllables. As they practice word building, they begin to understand decoding skills. They also build words to represent pictures to attach a meaning to the word and this lays a foundation for comprehension. Automaticity in decoding develops with practice and they start to read words, sentences, and small booklets.

The individual program presented here describes the educational methodology and learning modules using such a blended approach for reading and literacy development among young learners. The program is designed for young learners in a one-on-one setting (i.e. one teacher, one student). When a lesson is taught, the program allows students to advance according to their abilities and progression and provides time to repeat lessons as required. This helps students to move at a pace that is appropriate for them. After the program, the teacher may be able to identify if the student has additional reading deficits (e.g., issues like dyslexia or dysgraphia) that may require more specialized outside intervention.

1 Phonological Awareness

Phonological Awareness is one of the key predictors and a vital prerequisite for learning to read and spell. It is the ability to identify and manipulate units of sound.

The basic phonological awareness ability is detecting rhyme. The student with competent phonological awareness will easily recognize that the rime part is the same and only the onset is changed in words like pat, sat, and mat. The student with language learning disability may not be able to do this proficiently. Early exposure to rhymes is therefore important.

Phonological awareness involves the understanding that sentences are made up of words, that words are created from syllables, and syllables from sounds. When counting words, a student with language learning disability may think that 'Atlantic' is three words, not being aware that the components are syllables that make up one word. This knowledge cannot be assumed to be in place, but it must be taught directly. Once the student is aware of the syllable components, he can learn to manipulate them, adding, deleting, and reversing them. Only after extensive practice with syllables is the student able to identify and manipulate sounds in syllables. The awareness of phonemes (sounds)

is the highest skill and requires daily practice. The student who can accurately detect and manipulate the sounds in a syllable is well equipped for reading and spelling activities.

Developmental learning modules pertaining to phonological awareness are described in the following pages under the following sections:

- Rhyming
- Words & Sentences
- Syllables
- Onsets
- Phonemic awareness

1. *Learning Sensorially(LS)*

Learning modules presented under this heading will help the students to learn through auditory, visual, and kinesthetic (tactile & movement) methods. They provide refining and sharpening their listening and visual skills; listening very attentively and actively; developing great attention span; learning to follow directions; and enhancing vocabulary development. These skills will enhance the learning of phonological awareness, which is one of the important predictors of future success in learning to read.

LS-1 The Silence Game		
	Materials:	A quiet room
	Aim:	To sharpen the listening skills Develop good attention span Auditory discrimination
	Presentation:	Teacher: We are going to play a game called the <i>Silence Game</i> . Close your eyes and listen to the sounds in the room, outside the room and within yourself. Set a timer for 2 minutes. After 2 minutes of listening very quietly, ask the student to share what he heard. Student: Could have heard clock ticks, voices, footsteps, animals, someone coughing, faucet, flush, his own breathing, air conditioner, etc.
	Extension:	1. This game can be played in a different room or outdoors. 2. Use tape recordings of birds, or other animals and ask to guess the animal.

LS-2	Guessing the Instrument	
	Materials:	A quiet room Musical instruments - rhythm sticks, drums, tambourine, maracas, bells, triangles
	Aim:	Auditory sound discrimination Develop good attention span Vocabulary development
	Presentation:	Teacher: Introduces the names of each instrument (use 3 instruments at a time) and the sounds they make. Student: Echoes the names and listens to the sounds that the instruments make. Teacher: Close your eyes and listen to the sound and guess the name of instrument that is played. (Play one instrument at a time.) Student: Guesses the name.
	Extension:	Teacher: Places three instruments on the table. Close your eyes and listen to the sounds. Makes a sound with one instrument. Student: With closed eyes student listens to the sound. Opens eyes and picks up the instrument that was played and plays it once.

LS-3	Sequencing Sounds Game	
	Materials:	Objects that make distinctive sounds Musical instruments or Other objects making sounds
	Aim:	To develop sequencing memory for sounds and expressing them Auditory discrimination Vocabulary development
	Presentation:	Teacher: Reviews the sounds of the instruments. Close your eyes. I will make two sounds at a time, and you will guess the names of the instruments in the same order. Student: Guesses the sounds in correct sequence. Teacher: Now I will play three sounds, tell me the first sound, second sound, the last sound? Student: Responds using the language first, second, third or last sound. Encourage student to use full sentence while responding.
	Extension:	Give three different sounds, ask the students to repeat the sequence. Now omit one sound and see if the student can identify the omitted sound. Let the student take a turn to produce sounds and the teacher guesses.

LS-4	Simon Says Game	
	Materials:	None
	Aim:	To follow directions Auditory and kinesthetic discrimination To develop body awareness, crossing the midline, gross motor skills, listening skills, memory skills
	Presentation:	Play Simon Says Simon says* game is a fun way to develop the following: Body awareness: Touch your toes, Touch your elbows, Touch your ankles, Blink 3 times, etc. Crossing midline: Hug yourself, Touch both elbows at the same time, Touch your right knee with your left hand, Touch your right toe with your left hand, Touch your left shoulder with your right hand, Wave your arms above your head, Twist from side to side, etc. Gross motor skills: Walk backwards in a straight line, Act like an elephant and swing your trunk, Jog around the circle, Roll over on the ground 2 times, Jump up and down 10 times, etc. Listening Skills: Bend over to touch toes 3 times, clap 5 times, Do 6 jumping jacks, close your eyes and balance on one foot, etc. Memory skills: Wiggle your nose and smile and show your teeth, touch your left elbow with right hand and touch your right knee with your left hand, etc.
	Extension:	

*<https://empoweredparents.co>

'70 Simon says ideas that are fun and educational' by Tanja McIlroy

LS-5	Clapping Game	
	Materials:	None
	Aim:	Auditory memory Auditory and kinesthetic discrimination
	Presentation:	Teacher: I will produce sounds in a rhythm. Listen carefully and produce the same sounds with the same rhythm. Clap, clap, clap Clap, pause, clap, pause Clap, stomp, clap, stomp Stomp, clap, clap, clap Stomp, stomp, clap, clapso on
	Extension:	Another game is to tell the student that: One clap means stand on your knees; two claps mean jumping twice; three claps mean turning around three times. Student take turns giving commands to the teacher.

LS-6	Name That Object	
	Materials:	10 little objects in a basket
	Aim:	Auditory memory Auditory, visual, kinesthetic discrimination Vocabulary development
	Presentation:	Teacher: There are ten objects in this basket. Listen to the names and echo. Student: Echoes the name of each object. Teacher: Places three objects on the table. Name these three objects. Now I will cover them, and you will name them again. Student: Recalls the three objects and their names. Teacher: I will add two more objects. You will name them. I will now cover all five objects. You will recall all the five objects in the same order that I placed. Student: Recalls all five objects in the same order that it was placed. This game will continue till all the ten objects are placed. At the end, student should be able to recall all ten objects placed in the same order that it was placed.
	Extension:	Increase the number of objects to be pulled out of the basket. This can be done using pictures instead of objects.

LS - 7	Tooty Ta Song by Kiboomers	
	Materials:	None
	Aim:	Auditory memory Following directions Kinesthetic, auditory, visual discrimination Vocabulary development
	Presentation:	The teacher will teach one or two movements each day. Teacher sings: A tooty ta, a tooty ta, a tooty ta ta 1. Thumbs up Student echoes. Teacher continues this way adding one more each time. A tooty ta, a tooty ta, a tooty ta ta 2. Elbows back 3. Feet apart 4. Knees together 5. Bottoms up 6. Tongue out 7. Eyes shut 8. Turn around Repeat 1,2 - a tooty ta.....chorus Repeat 1,2,3 -chorus Repeat till the end
	Extension:	

1.2 Rhyming (RMG)

Rhyming words have the same ending sounds. A rhyme can occur in songs or poems. Rhyming may be easy for some children but not all. Sensitivity to Rhyming is a vital part of the development of phonemic awareness as you need to listen for the sounds inside words. Students who can hear rhymes can recognize the 'onset and rime.' 'Onset' is the sound/sounds that come before the vowel and 'Rime' is the string of letters that follow, usually a vowel and final consonants. E.g., in the word, 'cat' - 'c' is the onset and 'at' is the rime. A rhyming word will have different onsets and the same rime. Students who are not familiar with rhymes practice this repeatedly to become better.

Learning modules presented under this heading will help the student to learn rhyming through auditory, visual, and kinesthetic methods, and enhance vocabulary development.

RMG - 1	Same and Different	
	Materials:	3 circle cards* 1-triangle card
	Aim:	Visual, auditory, kinesthetic discrimination Vocabulary development
	Presentation:	Bring 2 circle cards to the table. Teacher: Traces each circle with hands while saying circle, circle. These two cards are the 'same'. Student: echoes 'same.' Teacher: Traces the circle and triangle cards while saying circle, triangle. These two cards are 'different'. Student: echoes 'different.' 1. Teacher places both the circle, circle and circle, triangle cards on the table and reviews 'same and different.' 2. Teacher asks the student to <u>point</u> to the 'same and then the different cards.' 3. Teacher points to different set of cards and asks: 'What is this?' The answer will be 'same or different.' This is called a 'three period lesson.'
	Extension:	Make 2 copies of different shapes like hearts, diamonds, squares, rectangles. Mix the shapes into same and different cards. For example, have heart and heart; diamond and square; rectangle and rectangle spread on the table. Show the student same and different cards. Student can point to same or different cards and say if they are same or different.

*See picture titled '**RMG-1**'

RMG - 2	Listen to same and different	
	Materials:	Same and different cards
	Aim:	Auditory, kinesthetic, visual discrimination Vocabulary development
	Presentation:	Teacher reviews the ' same ' and ' different ' cards with the student. Now make 'same or different' sounds: clap, clap clap, snap clap, snap, clap snap, clap, clap snap, snap If the sounds are the same , point to the ' same ' card or give thumbs up ; and if they are different , point to the ' different ' card or thumbs down . Few sounds could be tap, stomp, click,
	Extension:	Ask the student to listen with closed eyes. Teacher makes similar sounds as above and the student will say ' same ' or ' different ' instead of pointing out to the cards.

RMG - 3	Same Ending Sounds	
	Materials:	4-5 different musical instruments Maracas; rhythm sticks; tambourine; drums; cymbals
	Aim:	To recognize that the ending sounds for rhymes are same and only the beginning sound changes Reinforce listening skills Vocabulary development
	Presentation:	Teacher: Produces a pair of sounds with the instruments. First: maracas and the cymbals Second: rhythm sticks and cymbals Third: drums and cymbals Teacher: Which instrument was heard in all the three different pairs of sounds. Where did you hear the cymbals – beginning or end? This shows the student that the ending sounds are the same in rhyming.
	Extension:	Use different mediums of sounds to show that the ending sounds are the same in rhyming words.

RMG - 4	Visual Awareness of Rhyming	
	Materials:	5-6 Red, 1 blue, 1 green, 1 yellow, 1 brown, 1 orange square construction paper placed on a board
	Aim:	To show visually that rhyming changes only in the initial position Auditory, kinesthetic discrimination
	Presentation:	Some students may still not understand rhyming. Visual Awareness may help with the students who have difficulty understanding rhyming. Teacher: Places 5 red construction paper squares on the board, one below the other. Tells the student that these red squares are 'at'. Teacher: Places the blue, green, brown, white, and yellow square pieces to the left of the red squares. Teacher: Where do they look the same? Student: At the end. Teacher: Where do they look different? Student: At the beginning. Teacher: Rhyming words sound the same at the end and different at the beginning. The red squares are 'at'. Teacher: Points to each red square and says 'at'. Student: echoes 'at'. Teacher: Points to each different color and running the finger from left to right and says: M-at, c-at, r-at, s-at, b-at. Student: echoes the above. Show that only the initial sound changes. On the second day, ask the student to generate the words.
	Extension:	

RMG - 5	Rhyming Words	
	Materials:	Nursery rhymes List of nursery rhymes*
	Aim:	Develop phonological cues to make rhymes Auditory discrimination Vocabulary development
	Presentation:	Teacher: Say mat, sat; pig, jig Student: Echoes mat, sat; pig, jig Continue this exercise for a few days. When the student becomes familiar with rhyming, the teacher gives 2 rhyming words and student can echo and generate 2 more rhyming words. For example, Teacher: pig, jig Student: pig, jig, rig, dig Read nursery rhymes and find words to rhyme. This can be done with movement or passing a ball to each other.
	Extension:	Rhyming can be done with action. Teacher: Echo the words 'cat, mat, sat, bat.' Let us act out these words. Teacher acts out and student repeats Cat – snap and clap Mat- tap and clap Sat – jump and clap Bat – skip and clap What action was the same in all these words? Yes, it was 'clap' at the end. Where was it different? Yes, at the beginning. Rhyming words end the same and are different in the beginning.

*See examples of Nursery Rhymes on next page **'RMG-5'**

List of Nursery Rhymes (RMG-5)

Twinkle, Twinkle, Little Star
Hickory Dickory Dock
One Two, Buckle My Shoe
Peas Porridge Hot
Jack Be Nimble, Jack Be Quick
Hey Diddle Diddle
Humpty Dumpty
The Muffin Man
Itsy Bitsy Spider
Mary Had A Little Lamb
The Wheels On The Bus
Frere Jacques
Baa Baa Black Sheep
I'm A Little Teapot
Jack and Jill

RMG - 6	Stories with Rhymes	
	Materials:	Books with rhymes List of books*
	Aim:	To train the student's ears to listen and predict rhyming words
	Presentation:	Teacher: First time reads a story normally to the student with all the rhyming words. Stop after each rhyming word and repeat the rhyming words. Second time reads the same story and exaggerates the rhyming words. Next time, reads the first line with the rhyming word and let the student provide the rhyming word in the second line. Finally, reads the same book and omits the final rhyming words in both first and second lines. Asks the student to guess the words. Students love listening to the same stories repeatedly.
	Extension:	Start off with simple books with stories.

*See examples of Books that rhyme on next page '**RMG-6**'

Books with Rhymes (RMG-6)

One fish, two fish, red fish, blue fish by Dr. Seuss
Fox in socks by Dr. Seuss
Green eggs and ham by Dr. Seuss
Goodnight Moon by Brown, M.W.
All About Arthur by Carle, E.
Jamerry by Degen, B.
Where's my teddy? by Alborough, J.
Henny Penny by Galdone, P.
Is your mama a llama? by Guarino, D.
Chicka chicka boom boom by Martin, B.
Polar bear, polar bear, what do you hear? by Martin, B.
Ten cats have hats by Marzollo, J.
Here are my hands by Marin B., Archambault J., Rand T.
Giraffes can't dance by Giles Andrease
Llama Llama red pajamas by Anna Dewdney
My truck is stuck by Kevin Lewis
Each peach pear plum by Allan Ahlberg

RMG - 7	Odd One Out	
	Materials:	Examples of words to read *
	Aim:	Increasing the phonological cues to generate rhymes Auditory discrimination
	Presentation:	Teacher: Say the words: <i>cat, bat, big</i> Student: Echoes the words: <i>cat, bat, big</i> Teacher: Only two words rhyme, and one does not. Tell me the word that doesn't rhyme. Student: Says <i>big</i>
	Extension:	Try giving a group of four words with one odd word that doesn't rhyme. This may be challenging for some students.

*See examples of words on next page 'RMG-7'

Odd One Out (RMG – 7)

Cat, rat, leg

Box, mud, fox

Bug, rug, rat

Bed, log, led

Bit, bat, sit

Map, nap, nit

Mat, pig, fat

Big, bug, jig

Car, bat, hat

Sun, rug, run

Dog, fat, log

Set, bell, get

Sat, mop, mat

rot, got, box

Sat, bat, cat, fin

tod, mod, pen, sod

Peg, meg, fed, leg

mud, fad, sud, bud

Rip, lap, dip, lip

blot, clot, slid, slot

RMG - 8	Pick the Rhymes	
	Materials:	Pictures with rhymes* Scissors Glue
	Aim:	To build the visual cues for generating rhymes Visual and auditory discrimination Vocabulary development
	Presentation:	Teacher: Gives pictures to the student. Cut out only the ones that rhyme. Then glue the rhyming pictures on plain paper. Student: finishes gluing and reads them.
	Extension:	Give more pictures to the student, two that rhyme and one that doesn't rhyme. Ask student to look at the pictures and give you the correct rhymes.

*See pictures titled '**RMG-8**'

RMG - 9	Rhyme Picture Match	
	Materials:	9-square template and rhyme pictures*
	Aim:	Visual identification of rhymes Kinesthetic, auditory discrimination
	Presentation:	Give 9-square templates to the student. Teacher places one picture in the first square. Teacher: Spread out six pictures that rhyme with each of the pictures on the square. Student: Picks the appropriate pictures that rhyme with the picture on the square. Student glues two rhyming pictures to each of the squares. Reads the rhymes that has been glued.
	Extension:	More rhyming discrimination can be done with other pictures.

*See pictures and 9-square template titled '**RMG-9**'

RMG - 10	Rhyme Hunting	
	Materials:	None
	Aim:	Working on the Phonological cues for rhyming Kinesthetic, visual, auditory discrimination
	Presentation:	Teacher: Today you are going on a rhyme hunt in this room (any room). Teacher says: 'I see a chair' What other words rhyme with 'chair?' Student: Guesses 'pear, hair, mare, etc.' Continue with more words. Choose any object in the room, ask to come up with rhyming words. Some examples: I see a pen - rhymes with ten, men, den. I see a block - rhymes with sock, clock, etc. Continue with more words.
	Extension:	Rhyme hunts can be done on imaginary trips to a farm; camping; zoo; beach; car rides; or vacations.

RMG - 11	Rhyme or Not	
	Materials:	Pairs of words* (some that rhyme and some that don't)
	Aim:	Auditory discrimination
	Presentation:	Teacher: Dictates a pair of words that rhyme. E.g, cake, bake Student: Echoes the words and tells if they rhyme or not. When the student is comfortable, give some words that rhyme and some that do not rhyme. Movement or thumbs up and down signs can be used to indicate rhyming and non-rhyming words.
	Extension:	

*See examples on the next page **'RMG-11'**

Rhyme or Not? (RMG -11)

cat/hat	fox/box	pig/big	log/bog
stop/pop	show/snow	bed/red	rest/best
mad/sad	lad/bad	get/bet	cap/map
rip/sip	fox/sox	hop/mop	tree/bee
chair/bear	block/sock	thin/pin	lake/cake
shoe/blue	miss/soup	light/bite	back/boss
kid/sid	ten/top	night/day	day/pay
box/sox	fun/run	rug/bug	mud/mut
dig/lag	bike/bone	nut/tree	chair/sit
flip/slip	shop/mop	king/bing	drip/sip

RMG - 12	What Rhymes With ---	
	Materials:	Words to rhyme List of words*
	Aim:	To be able to generate rhyming words Auditory discrimination Vocabulary development
	Presentation:	Teacher says: the word is 'cake.' Student: echoes cake and gives more rhyming words. (Teacher and student can toss a ball to each other.) Try to see how many rhyming words you two can produce. (This activity can be timed.)
	Extension:	Student can act out verbs and rhyme. For e.g., clapping/slapping; seeding/weeding/; feeding/reading; feeling/peeling; tanning/fanning; Sleeping/beeping; singing/ringing; Walking/talking; sitting/fitting; Wheezing/sneezing; crying/drying This can be done for color words as in: Red/bed; blue/clue; yellow/mellow; brown/frown; gray/pray; green/screen; White/might; black/slack; etc. Also, can use number words as in: One/fun; two/moo; three/free; four/pour; Five/dive; six/fix; seven/eleven; eight/weight; nine/fine; ten/men; etc.

*See examples on next page 'RMG-12'

What rhymes with.....(RMG - 12)

cat	cake	ball	make	tip	rain
bug	top	hot	down	big	map
dog	bag	coat	save	day	leg
leg	feet	round	Pin	tip	rain
pan	hill	hair	hand	red	fun
late	Go	get	light	dress	cold
dish	tree	jump	nail	book	seat
bet	cry	sick	sun	hug	back
car	mud	me	up	at	row

RMG - 13	Memory Game	
	Materials:	Deck of rhyming picture cards*
	Aim:	To recognize rhyming words
	Presentation:	<u>Memory Game:</u> Teacher: Places all the cards facedown. Student: Turns over two cards at a time. If the pictures on the two cards rhyme, he keeps the cards and takes another turn. If the pictures on the two cards do not rhyme, he places the cards facedown, and the teacher takes a turn. Whoever gets the greatest number of rhyming cards wins the game.
	Extension:	Another game to play is ' Go Fish '.

*See picture titled '**RMG-13**'

RMG - 14	Rhyme Your Name	
	Materials:	None
	Aim:	Auditory discrimination
	Presentation:	Teacher: Today you are going to rhyme your name. Teacher can start off with her name and make a rhyme. Student: Takes a turn to rhyme his/her name. Choose other names in the family, pets, friends, relatives and rhyme all names.
	Extension:	Can make this a silly rhyming game by using nonwords and silly words to rhyme their name. Point to a part of your body and say: for example: Point to your hand and say, 'this is my band.' The student will say 'this is your hand.' Tin for chin; beg for leg; deck for neck, etc.

RMG - 15	Rhyming Sentences	
	Materials:	Rhyming sentences with the following* Color rhymes Number rhymes General rhymes
	Aim:	Auditory discrimination
	Presentation:	Teacher: Reads each sentence and pauses at the slash. Student: Completes the rhyme by giving an appropriate rhyming word. The rhymes with number can be done with placing plastic numbers or writing the numbers on the board. Color rhymes can be done by using color crayons or pencils.
	Extension:	

*See examples on next three pages **'RMG 15A, 15B, 15C'**

RMG -15A

Rhyming Sentences - General

I see a **jug**/ on top of the _____. (**rug**)

The little **lad**/ plays with the _____. (**pad**)

The two men **talk**/ while they _____. (**walk**)

There is a **boy**/ who plays with his _____. (**toy**)

A big brown **bat**/ flew over my _____. (**hat**)

My dad found the **rake**/ and saw a big rattle _____. (**snake**)

Her mom can **bake**/ a very delicious _____. (**cake**)

I sat in my **car**/and saw in sky, a beautiful _____. (**star**)

The man and the **pig**/ can do a little _____. (**jig**)

His dad called him **Tony**/because he could ride a _____. (**pony**)

Why do you **moan**/instead of picking up the _____? (**phone**)

The flower is **pink**/ and it sits in a vase over the _____. (**sink**)

I had no **clue**/ that the sky can be so _____. (**blue**)

RMG – 15B

Color a Rhyme: Give student nine paper squares; student colors each square with the rhyming color. Or student can hand over the rhyming crayon to the teacher.

1. My mom got me a **bed**
And I like it because it is _____. (red)
2. The circus has a **clown**
Whose arm is painted in _____. (brown)
3. The teacher has no **clue**
Why the sky is so _____. (blue)
4. The man wore his tie so **tight**
That his face got, oh so _____. (white)
5. He got a lot of **flak**
For not writing it in _____. (black)
6. They all call him a great **fellow**
He always shows up wearing _____. (yellow)
7. My porch has a **screen**
That is painted white and _____. (green)
8. My brother says **borange**
When he means _____. (orange)
9. The juice fell off the **tray**
And stained the rug dark _____. (gray)

RMG – 15C

Write a Rhyme: Student can write the numbers that rhyme.

1. Have a lot of **fun**
But make it number _____. (1)
2. My friend said '**boo**'
And so, did I to make it _____. (2)
3. Tomorrow I am **free**
To meet you at _____. (3)
4. My feet are so **sore**
Because I stayed up until _____. (4)
5. It was a big **dive**
For a boy who is only _____. (5)
6. He helped his mom **mix**
The eggs of which there were _____. (6)
7. How many angels in **heaven**
Maybe there are _____. (7)
8. My mom closes the **gate**
When the clock strikes _____. (8)
9. You have to draw the **line**
When it comes to number _____. (9)
10. Be ready with your **pen**
When the teacher says _____. (10)

RMG - 16	Rhyme family Game	
	Materials:	Ball or bean bag to toss back and forth
	Aim:	Automaticity of rhyme production Auditory, kinesthetic discrimination Vocabulary development
	Presentation:	To begin the game, Teacher says: "My house is filled with mats." Toss the ball to the student. Student: Says "my house is filled with cats" and tosses back the ball to the teacher. Teacher repeats: "my house is filled with mats" , then tosses the ball to the student. This continues until the student runs out of rhymes. Then begin the game with a new object in the house. See example below.*
	Extension:	The student can also rhyme things in a farm, school, camp or any a special trip. To work with short term memory, student will repeat: my house is filled with mats, cats. In the next turn, mats, cats, bats, etc.

*My house is filled with chairs. (bears, stairs, mares, hares; pears, etc.)
 My house is filled with jars. (stars, bars, mars, cars, scars, etc.)
 My house is filled with tins. (pins, fins, bins, dins, skins, shins, etc.)
 My house is filled with rugs. (bugs, dugs, hugs, mugs, pugs, slugs, etc.)

1.3 Words & Sentences(WS)

Words can be divided into syllables. Words can be long or short. Long words will have more letters than short words. Sentences are made of words. The introduction that sentences are made of words is the first introduction to the structure of our language.

Learning modules in this section deals with the understanding of the structure and meaning of sentences & words; introduction to comprehension which will be very essential in reading and writing.

WS-1	Word Length	
	Materials:	Word pairs*
	Aim:	To recognize long/short words auditorily and visually Vocabulary development
	Presentation:	This exercise concentrates on the concept of a word as separate from the thing that the word describes. Teacher: Echo the two words I say and tell me which word is longer. Truck or grasshopper? Student: Echoes the words. Student: Says grasshopper Some may say 'truck' from the size it resembles. To show visually, take either counters or small square pieces of paper. Place 5 counters for truck. Place 11 counters for grasshopper. Now ask which is longer. Say that the word with more letters is also longer. See next page for word pairs.
	Extension:	These words can be printed on a paper in bold, so the student can see the length.

*See examples on next page '**WS-1**'

List of Word Pairs (WS – 1)

Bus – Monkey

Pizza – Hamburger

Chair – mosquito

Car – beetle

Boy – candy

bear – library

home – elephant

butterfly – grasshopper

Bee – dragonfly

Earth – Watermelon

WS-2	Word Length	
	Materials:	Word pair cards*
	Aim:	Auditory development of long and short words Vocabulary development
	Presentation:	This game is very similar to the above game but without the use of visual aids. Teacher: Reads the words from the cards. Student: Echoes the words. Teacher: Tell me which word is longer. Show long and short arm motions. For the student having difficulty, practice lesson WS -1 few more times.
	Extension:	Revisit this lesson after the introduction of syllables. The student can clap the syllables or use body movements and verify by the looking at the cards to see if it is correct.

*See examples on next page 'WS-2'

List of Words (WS -2)

Cow – ladybug

Ant – brontosaurus

Bus – motorcycle

Dog – giraffe

Mosquito – truck

Tree – flower

Bee – butterfly

Elephant – cat

Beaver – pig

Goat – lizard

WS-3	Two in One	
	Materials:	List of Compound Words*
	Aim:	To recognize that two words can be put together to make a new word Auditory discrimination Vocabulary development
	Presentation:	Teacher: Say baseball, basketball, softball. Besides being different kind of balls, what do these words have in common? These are 'compound words.' They are made of two small words that are combined to form a new word, with its own meaning. Compound means 'putting together.' For example, take the words 'cup' and 'cake.' If we put these two together, we get the compound word 'cupcake.' Let us think of other delicious compound words. How about 'black berry, straw ... berry?' This can be done with hand motion. Teacher pulls out fist for the first word and another fist for the second word and combine them to form the compound word. Student: Echoes the same.
	Extension:	Have puzzle cards of compound words to put together.

*See examples on next page **'WS-3'**

List of Compound Words (WS – 3)

(Putting together words)

Cup	cake
Pop	corn
Oat	meal
Water	melon
Grape	fruit
Pea	nut
Break	fast
Apple	sauce
Blue	berry
Black	berry
Bubble	gum
Cheese	burger
Corn	bread
Flap	jacks
Fruit	cake
Ginger	bread
Corn	meal
Butter	milk
Bean	sprout
Cheese	cake
Ham	burger
Meat	ball
Meat	loaf
Pine	apple

WS-4	Pull Them Apart	
	Materials:	List of Compound words* Pictures of words is optional
	Aim:	Identifying two words in a compound word Kinesthetic, visual, auditory discrimination
	Presentation:	Teacher: Say 'cowboy' and show two fists together. Listen to the two words inside that word. Student: Echoes the word cowboy with two fists together. Teacher: Pull each fist while saying the two words cow - boy. Student: Student has two fists together and pulls fists apart for each word, Cow - boy. Continue with the rest of the list.
	Extension:	

*See examples on the next page 'WS-4'

Pull Them Apart (WS - 4)

Paintbrush	Seashore	Homework	Suntan
Bookcase	Baseball	Playground	Haircut
Backpack	Seesaw	Classroom	Raindrop
Flashlight	Fireman	Cowboy	Kneecap
Eyebrow	Eyelash	Mailman	Doughnut
Milkshake	Eyeglasses	Cheesecake	Sunflower

WS-5	Add A Word	
	Materials:	List of Compound words* Optional - felts
	Aim:	Making compound words.
	Presentation:	Teacher: Echo the word Eye Now add a second word to make a compound word. Student: Echoes 'eye' and give the last part. E.g., eyelash/ eyeball/ eyeglasses Use of fists or felts make it more fun.
	Extension:	Have some mixed words or pictures that the student can glue together to make compound words.

*See examples on the next page '**WS-5**'

Add A Word (WS-5)

(Some ideas)

Eye glasses/lashes

Cow boy/girl

Foot path/ball

Black bird/berry

Sun flower/shine

Moon light/shine

Basket ball/maker

Cross walk/talk

Fire works/men

Foot print/stool

Tooth brush/paste

Ice cube/cream

WS-6	Deletion of words	
	Materials:	List of Compound words* Pictures of the first part of the compound word (optional)
	Aim:	To increase awareness of two words within a compound word
	Presentation:	Teacher: Say the word, 'raincoat.' Student: Echoes 'raincoat.' Teacher: Say it without 'coat.' Student: Says 'rain.' Can have a picture of rain. Do more examples as given below.
	Extension:	Do the same exercise more concretely with pictures for the student that need more help.

*See examples on next page 'WS-6'

List of Compound Words (WS - 6)

Paintbrush	(without brush)
Baseball	(without ball)
Seesaw	(without see)
Classroom	(without room)
Seashore	(without shore)
Bookcase	(without case)
Milkshake	(without shake)
Backpack	(without back)
Playground	(without ground)
Homework	(without work)
Suntan	(without sun)
Sunflower	(without flower)
Moonlight	(without light)
Haircut	(without hair)
Raindrop	(without rain)
Eyebrow	(without brow)
Eyelash	(without eye)
Mailman	(without mail)
Flashlight	(without light)
Fireman	(without man)
Strawberry	(without berry)
Doughnut	(without nut)
Cupcake	(without cake)

WS-7	Words in a Sentence	
	Materials:	7-8 Small cubes (cubes represent words) List of sentences*
	Aim:	To recognize how many words are in a sentence.
	Presentation:	Give about 7-8 small cubes to the student. These are placed in a straight line in front of the student. Teacher: Dictates a sentence. <i>I have a blue car.</i> Student: Echoes the sentence. Teacher: Move a cube down for each word. Student: Moves a cube for each word and then counts the number of cubes. The sentence has 5 words.
	Extension:	Show pictures to the student and ask to generate full sentences. Student places the cubes for each word generated. Now the teacher places a line for each word on the board. The student can then check to see if the correct number of cubes were placed.

*See examples on next page 'WS-7'

List of Sentences (WS – 7)

Mark jumps. (2)

Janet cries. (2)

The dogs bark. (3)

The car is blue. (4)

Some birds fly. (3)

The bell rang. (3)

A frog hops. (3)

The boat sailed away. (4)

The boys will sing the song. (6)

The girls and boys ran a race. (7)

Our class played ball. (4)

We want candies. (3)

The farmer fed the chickens. (5)

WS -8	Long or Short Sentence?	
	Materials:	List of long and short sentences* Cubes
	Aim:	Reinforces the idea that a sentence is made up of different number of words.
	Presentation:	Teacher distributes 7-8 cubes to students. (Make barebone sentences, i.e., sentences made of only two monosyllabic words.) Teacher: Echo <i>Alison ran</i>. Give the number of words in this sentence. Student: Echoes and says 2 words. Teacher can place lines for each word for the student to see the number of words and the space between words.....Visual After a few 2- word sentences, start giving 3 words, 4 words, (monosyllabic) and so on. Now give two different sentences with different number of words. Teacher: If the sentence has 4 or less words, it is a short sentence. If there are more than 4 words, it is a long sentence. Student: will count the number of words in each sentence and tell whether it is long or short.
	Extension:	

*See examples on next page 'WS-8'

List of Short and Long Sentences (WS – 8)

A cow moos. (3)

The mom hums a tune for her son. (8)

The girl ran. (3)

We will see bears at the zoo. (7)

The frogs hop.(3)

Bat and cat rhyme. (4)

The bell rang. (3)

Big birds build big nests. (5)

The boy swam. (3)

I went to check on the hens. (7)

Ann fell. (2)

A big bug sat on a rose. (7)

Mike was mad.(3)

The bee stung the little lad. (6)

Frogs hop in the rain. (5)

The cat chased the little mouse. (6)

She fed the pigs. (4)

The slug is very slow. (5)

The clock tells time. (4)

My dad took me to see movies (7)

WS - 9	Sentence Bingo	
	Materials:	List of sentences with 2-8 words* Bingo 1 and Bingo 2 cards** Dry-erase markers List of sentences Optional cubes
	Aim:	To reinforce the number of words in a sentence
	Presentation:	There are two different sets of bingo cards – Bingo card 1 and Bingo card 2. Distribute one to the student and one to yourself. Teacher: Reads a sentence <i>The girl can sing.</i> Student: Echoes the sentence. Student can either use cubes or their body part to count the words. Student: Calls out the number of words in the sentence. If the correct answer is called out, both will mark the space with that number on their card. e.g., If there are '5' words in the sentence, mark the number '5' on the bingo card. Whoever gets a vertical or horizontal or diagonal or four squares, will shout BINGO.
	Extension:	This can be done with pictures where the student generates the sentences and the mark the cards.

*See examples on next page 'WS-9'

**See Bingo Cards titled 'WS-9'

List of Sentences for Bingo (WS – 9)

Sarah jogged. (2)

I had a slice of peach pie. (7)

Molly caught a bass. (4)

In the morning, the birds sang sweetly. (7)

Aunt Mary coughed. (3)

The kids were at the lake until sunset. (8)

My dog ran away yesterday. (5)

Can a goose chase a dog? (6)

The Dill family traveled to Maryland. (6)

The cherry cobbler was delicious. (5)

Swimming in the ocean makes me happy. (7)

Before they hiked in the woods, they ate. (8)

Dan screamed. (2)

Will Dolores arrive early? (4)

The tall gorilla pounded his chest. (6)

The baby smiled. (3)

Sing more loudly and clearly. (5)

A small brown snake slithered under the fence. (8)

The bobcat hissed. (3)

A colorful fish appeared. (4)

At night, the stars shone brightly. (6)

I have a hermit crab. (5)

Will the tadpole turn into a frog? (6)

The white tiger roared loudly. (5)

Max will be early. (4)

1.4 Syllables (SYL)

Syllables are units of oral or written language with one vowel sound and some accompanying consonants. They are units of sound said with one push of a breath. It is important to learn syllables in order to decode and encode. There are six types of syllables; only closed syllables are addressed here.

Learning modules in this section will help students to learn:

- Divide words into syllables
- Syllable counting
- Syllable blending
- Syllable segmentation
- Syllable deletion
- Syllable reversal
- Syllable substitution

SYL - 1	What is a Syllable?	
	Materials:	List of words with varying syllables*
	Aim:	To teach: What is a syllable? Words are made of smaller units of speech Auditory, kinesthetic discrimination
	Presentation:	Teacher: Today I will talk about a syllable . A syllable is a word or a part of a word. It contains a single vowel accompanied by consonants. Words may have one, two, three or more syllables. Teacher: Echo the word, 'Da/vid' Student: Echoes 'Da/vid' Teacher: Place your hand below your chin and see how many times your jaw touches your hand. Each time your jaw touches your hand, it is counted as a syllable. Teacher: How many times did my jaw open when I said the word 'David?' Yes, two times. David has 2 syllables. Each syllable relates to opening and closing of the jaw. (To make counting easier, have one hand under the chin and use the other hand for counting.)
	Extension:	Use words that may be more familiar to the student.

*See example on next page 'Syl-1'

List of Syllables (SYL-1)

winter	lotion	car
jungle	table	carpet
napkin	silver	rose
tablet	number	Iris
pencil	trumpet	carnation
Monday	sister	magnolia
rooster	target	chrysanthemum
empty	camel	lily
Henry	bone	dinner
Gabriel	egg	pin
spider	doe	cake

SYL - 2	Counting Syllables	
	Materials:	List of words with varying syllables* Rectangular foams represent syllables
	Aim:	Auditory, Kinesthetic, Visual reinforcement of concept of syllables Vocabulary development
	Presentation:	Teacher: Say the word 'car.' Look at your jaw to see how many times the jaw opens and shuts. Yes, one. 'Car' has one syllable. Reinforce definition of syllable. A syllable is a word or part of a word. It contains a single vowel accompanied by consonants Teacher: Rectangular foams represent syllables. Student gets 4-5 rectangular foams of the same/different colors. Each foam is a syllable. (Demonstrate how to place a foam for each syll.) The word is <i>teacher</i>. Pull down one foam for each syllable placing them from left to right. Student: Pulls down one foam for <i>tea</i> and another foam for <i>cher</i>. <i>Teacher</i> has 2 syllables. Do more examples as given below.
	Extension:	Another way to do this is with movement. First syllable - tap the head Second syllables – touch the neck Third syllables – touch the shoulder Fourth syllables – touch the tummy Fifth syllables – touch the knee Sixth syllables – touch the ankle

*See example on next page 'Syl-2'

List of Syllables (SYL-2)

car	door	Ann
carpet	teacher	Abigail
rose	student	Aristotle
Iris	writer	Ed
Carnation	principal	Imelda
magnolia	window	Jessica
chair	Veronica	Elizabeth
Lily	chalk	hemophilia
Philadelphia	Feliciano	mathematical
Caledonia	Alexandria	Glenda
Glenda	Julietta	Jack
Kate	hockey	band
Electricity	Lisa	Gloria
Valerie	Olivia	Luca
pizzeria	coral	Yolanda

SYL-3	Clapping Names	
	Materials:	Names of student, family, pets, friends Rectangular foams (optional)
	Aim:	Visual, auditory, kinesthetic reinforcement of Syllables
	Presentation:	Teacher: Some people have short names, and some have long names. Let us make a list of names . Say Linus. Find out how many syllables in the name Linus. Student: Li/nus Li/nus has two syll. Student may use the felts which represent each syllable or clap or chin touch. Teacher chooses more names from the list.
	Extension:	Take a basket with several objects like pen, pencil, eraser, crayon, marker, book, cube, marble, small ball, ruler, paper, small box, etc. Name the objects in the basket. Student will echo each of these names. Ask student to close his/her eyes and pick an object from the basket and name it. E.g., this is a 'crayon.' Now Student claps out the syllables and says how many syllables are in that object.

SYL-4	Syllable Sorting with Pictures	
	Materials:	Pictures with varying number of syllables* Numbers 1-4 written on each card
	Aim:	Visual, kinesthetic reinforcement of Syllables Vocabulary development
	Presentation:	Teacher: Places the numeral cards 1-4 on the table. Pick a picture card and name it. Find the number of syll. and place the picture under the appropriate number on the table. Student: Selects a picture card, names it, and claps and counts the number of syllables. Student now places the card below the corresponding number of syllables. Review the pictures in each column after the pictures have been sorted.
	Extension:	When the student is comfortable, give any picture card, and challenge him to sort it by saying the name and without clapping. This may be challenging for some as the kinesthetic aspect is removed.

*See picture titled 'SYL-4'

SYL-5	Syllable Bingo	
	Materials:	Bingo card* Words** Counters or markers
	Aim:	Visual, auditory reinforcement of counting syllables in words
	Presentation:	There are two different sets of bingo cards. The teacher and the student take one each. The teacher calls out the syllables. Student calls out the number of syllables in the word. Student and teacher mark the space with that number on the card. e.g., If the word is 'car' the students will mark the number one on the bingo card. Whoever gets a vertical or horizontal or diagonal or four squares, will shout BINGO.
	Extension:	Place pictures from any of the syllable activities face down. First the student picks a picture and names it. If it has 2 syllables, both place a counter on the '2' on their bingo card. Teacher takes turn choosing the picture. The game continues until someone gets a vertical or horizontal or diagonal or four squares, will shout BINGO.

*See pictures titled 'Syl-4'

*See Bingo card titled 'Syl-5'

** See words for Bingo on next page 'Syl-5'

List of Syllables (SYL-5)

Car	(1)
Carpet	(2)
Rose	(1)
Iris	(2)
Carnation	(3)
Jessica	(3)
Chair	(1)
Veronica	(4)
Elizabeth	(4)
Lily	(2)
Caledonia	(5)
Glenda	(2)
Kate	(1)
Electricity	(5)
Valerie	(3)
Pizzeria	(4)
Alejandro	(4)
Teacher	(2)
Student	(2)
Jack	(1)
Window	(2)
Principal	(3)
Imelda	(3)
Abigail	(3)
Yolanda	(3)
Aristotle	(4)
Julietta	(4)

SYL-6	Syllable Graphing	
	Materials:	Graphing paper reproducible* Syllable pictures* Scissors, glue stick
	Aim:	Visual, kinesthetic reinforcement of Syllables
	Presentation:	Teacher: Today you will graph the syll. Gives the graph paper and syllable pictures to the student. Student: Picks a picture and places it in the column on the graph with the same number as the number of syllables in the word. Student repeats this process until all the syllable cards have been placed. Teacher: Discuss the graph with the student. Ask the student to look at the graph and answer some questions like: How many syllables do most of the words have? How many 2 syllable words are there? etc.
	Extension:	1. Another game called 'War' can be played with syllable cards. 2. Play 'Go Fish' with the syllable cards. 3. A game of 'Concentration' can also be played with these cards.

*See Graphing paper and pictures titled '**SYL- 6**'

SYL-7	Syllable Blending	
	Materials:	List of two syllable words*
	Aim:	To show how to blend syllables one by one into familiar words Preparation for reading, writing
	Presentation:	Teacher gives two syllables separately and asks the student to combine the 2 syll. Teacher: Say 'pic' (shows left hand and now says 'nic' and show the right hand.) When I bring the hands together, what word does it make. It makes 'pic/nic.' Student: Brings hands together and says 'picnic.' Teacher continues to give two-word syllables distinctly for the students to blend and find the new syllable.
	Extension:	1.Can extend this activity to showing pictures of words. 2.Teacher gives the whole syllable, and the student pulls them apart.

*See examples on next page 'Syl-7'

SYL-8	Syllable Recall	
	Materials:	Numeral cards with 1, 2, 3, 4, 5, 6 or use dice
	Aim:	Recall of Syllables Preparation for reading, writing
	Presentation:	This is a very abstract exercise and may be challenging for some students. Teacher: Pick a number and give me a word that has that many syll. (If using dice, student rolls the dice and gives the number.) Student: Picks number 3. The word is 'Maryland.' For simplicity, have a category like States, Countries, objects, restaurant, animals, etc. If this is very challenging, start off with one, and two syllables and fold in more as the students get proficient at it. Vary the lesson with different movements for different number of syllables.
	Extension:	The variation can be to show pictures. The student picks a number from the dice or paper. The student will point to the picture with the same number of syllables. For e.g., if he picks 3, he will show the picture of an 'elephant.'

SYL-9	Syllable Accents	
	Materials:	List of syllables or pictures
	Aim:	Learning how to accent a syllable Helps in preparation for reading, writing
	Presentation:	Do Alphabet accenting module # AL-20 to review the accenting Teacher: Says a few names, overemphasizing the accented syllables in the names. E.g. Sta' cy; Ka' ra; Ja' son; A'dam Is there a difference in the way one part of the name is said. One part is louder than the other. When one part is accented, the mouth opens wider and hence said louder and the tone is higher. The accented part can be modeled with hands up in the air and down for unaccented syllable. Say your name e.g., Emma Would you say Em/ma or Em/ma? Student: Em/ma Practice with other names by accenting the syllable.
	Extension:	Show pictures and ask the student to say it with the correct accent.

SYL-10	Syllable Deletion – I (last syllable)	
	Materials:	List of names of people* Rectangular foams
	Aim:	To encourage awareness of syllables within words Preparation for reading, writing
	Presentation:	It is best to use the names of the student's family or friends or pet names. On the second day, the given list can be used. Teacher: Say 'Johnny' and put out the rectangles for each syllable. Student: Says 'Johnny' and puts out 2 rectangles. Teacher: Now say 'Johnny' without 'nee'. Student: Takes out the second rectangle and says 'John'. Teacher will continue with other names. Use the foam rectangle pieces only if needed. This can also be done with hand movements. Put one hand out for each syllable. When the syllable is deleted, take that hand off.
	Extension:	1.Do the above with words from a book being read. 2.Teacher can say the name, leave out a syllable and ask the student which syllable she left out.

*See examples on next page 'Syl-10'

List of Names (SYL-10) (Delete the last syllable)

Say	<i>Bobbie</i>	Say it again, but don't say	<i>bee</i>	<i>Bob</i>
	<i>Russell</i>		<i>sell</i>	<i>Rus</i>
	<i>Kendra</i>		<i>druh</i>	<i>Ken</i>
	<i>Baxter</i>		<i>ter</i>	<i>Bax</i>
	<i>Hadley</i>		<i>lee</i>	<i>Had</i>
	<i>Esther</i>		<i>tur</i>	<i>Es</i>
	<i>Velma</i>		<i>muh</i>	<i>Vel</i>
	<i>Mona</i>		<i>nuh</i>	<i>Mo</i>
	<i>Henry</i>		<i>ree</i>	<i>Hen</i>
	<i>Ellen</i>		<i>len</i>	<i>El</i>
	<i>Bella</i>		<i>luh</i>	<i>Bell</i>
	<i>Colby</i>		<i>bee</i>	<i>Coal</i>
	<i>Linden</i>		<i>den</i>	<i>Lin</i>
	<i>Dustin</i>		<i>tin</i>	<i>Dus</i>

SYL-11	Syllable Deletion – II (first syllable)	
	Materials:	List of names of people* Rectangular foams
	Aim:	To encourage awareness of syllables within words Preparation for reading, writing
	Presentation:	This can be done with rectangular foams or hand/head movements. Teacher: Say <i>Johnny</i> . Now say Johnny without ' <i>john</i> '. Yes, Johnny without John is 'ny' Teacher gives several names to the students and asks them to say the names without the first syllable.
	Extension:	1.Can extend this activity to multi syllabic words. 2.Do the above with different names 3.Teacher can say the name, leave out a syllable and ask the student which syllable she left out.

*See examples on next page '**Syl-11**'

List of Names (SYL-11) (Delete the first syllable)

Say	<i>Nan/cy</i>	Say it again, but don't say	<i>Nan</i>	<i>cee</i>
	<i>Bray/den</i>		<i>Bray</i>	<i>den</i>
	<i>Bro/dy</i>		<i>Bro</i>	<i>dee</i>
	<i>Grif/fin</i>		<i>Grif</i>	<i>fin</i>
	<i>Ca/leb</i>		<i>Cay</i>	<i>leb</i>
	<i>Co/dy</i>		<i>Co</i>	<i>dee</i>
	<i>Con/nor</i>		<i>Con</i>	<i>ner</i>
	<i>Dan/ny</i>		<i>Dan</i>	<i>nee</i>
	<i>Da/vid</i>		<i>Day</i>	<i>vid</i>
	<i>Dev/in</i>		<i>Dev</i>	<i>in</i>
	<i>En/zo</i>		<i>En</i>	<i>zoe</i>
	<i>E/than</i>		<i>E</i>	<i>than</i>
	<i>Ev/an</i>		<i>Ev</i>	<i>un</i>
	<i>Gav/in</i>		<i>Gav</i>	<i>in</i>

SYL-12	Syllable Substitution	
	Materials:	List of Syllables*
	Aim:	Learning to substitute syllables Auditory discrimination
	Presentation:	Use foams or hand/head movements. Teacher: Say 'MaryAnn.' Student: Echoes 'MaryAnn.' Teacher: Say it without 'Ann' Student: Mary Teacher: Now add 'Beth' to 'Mary' and say the new syllable. Student: MaryBeth E.g. MaryAnn – Mary – Marybeth
	Extension:	If the student can skip step 2, Say: MaryAnn – replace Ann with Beth.

*See examples on next page **'Syl-12'**

List of Syllables (SYL-12)

Say	Cowboy	without	boy	add	girl	new word	cowgirl
	Jason		son		cub		Jacob
	Friday		fri		sun		Sunday
	Tickle		tic		pic		pickle
	Sandwich		witch		castle		sandcastle
	Dishpan		pan		washer		dishwasher
	Market		mark		buck		bucket
	Homework		work		home		homesick
	Needlework		needle		paper		paperwork
	Nightgown		gown		mare		nightmare
	Boldness		bold		cute		cuteness
	Middle		mid		fid		fiddle
	Keypad		pad		hole		keyhole
	Moonlit		lit		less		moonless
	Party		tee		lor		parlor
	Sister		sis		lit		litter
	Baby		bee		sin		basin

SYL-13	Playing with Syllables	
	Materials:	List of detached syllables*
	Aim:	Learning to add to a detached syllable and reverse the new syllable Preparation for reading, writing
	Presentation:	Use movements with hand or head or use rectangular foams. Teacher: Echo the word corn . Add pop to the end of corn.... cornpop Switch the parts and say the new word... popcorn . Repeat with all the given words.
	Extension:	None

*See examples on next page 'Syl-13'

List of Detached Syllables (SYL-13)

echo the syll. *school*,
add *pre* to the end of *school* (schoolpre)
switch the syllables (preschool)

echo the syll. *man*,
add *mail* to the end of *man* (manmail)
switch the syllables (mailman)

echo the syll. *boy*,
add *cow* to the end of *boy* (boycow)
switch the syllables (cowboy)

echo the syll. *go*,
add *car* to the end of *go* (gocar)
switch the syllables (cargo)

echo the syll. *tic*,
add *plas* to the end of *tic* (ticplas)
switch the syllables (plastic)

echo the syll. *real*,
add *un* to the end of *real* (realun)
switch the syllables (unreal)

SYL-14	Syllable Order	
	Materials:	List of syllables*
	Aim:	To focus on syllables and learn to manipulate their order Auditory reinforcement
	Presentation:	Teacher: Listen to the syllables. They are not in the right order. e.g., nus/Li - Does this sound right? The name is Li/nus . (Always start with the student's name) Tell the student to listen to these syllables and unscramble them to make the correct name. Do examples below and use names that the student may be familiar with for the first few days.
	Extension:	

*See examples on next page **'Syl-14'**

List of Names (SYL-14)

lix/fee	Felix
Un/meg	Megan
Rick/pat	Patrick
En/Kar	Karen
Ber/am	Amber
Lie/les	Leslie
Den/Og	Ogden
See/nan	Nancy
Sun/jay	Jayson
Lee/bil	Billie
Seph/Jo	Joseph
Ter/Wal	Walter
Vin/Gal	Galvin

SYL-15	Guess the Onset	
	Materials:	List of words*
	Aim:	To recognize sounds within a syllable Indirect preparation for reading
	Presentation:	For the teacher: An Onset is all the sounds in a word that come before the first vowel sound. Teacher: Listen and echo each word. Then tell me what sound you hear that is the same in all these words before the vowel. Teacher: Echo, still, step, sting, stand, stack Student: Echoes the words. Teacher: What is the same sound that you hear in these words before the vowel? Student: /st/ Teacher: Give more words for students to practice the initial sound called 'Onsets.'
	Extension:	This can be done with pictures or objects.

*See examples on next page 'Syl-15'

1.5 Phonemic Awareness

Phonemic Awareness is the most complex skills of all the Phonological Awareness activities. It is important to be able to hear and manipulate the oral sound patterns before identifying these patterns in print.

Phonemic awareness deals with the sounds i.e., phonemes. A phoneme is the smallest unit of sound. Phonemic Awareness is the ability to hear, identify and manipulate individual phonemes in spoken words. It directs the attention to the arrangement of the sounds instead of the meaning of the spoken words.

The activities involving phonemic awareness are **aural** and no print is involved. '**Aural**' relates to the ear or sense of hearing. 'Oral' refers to speaking. Phonemic awareness instruction is sequential.

Developmental learning modules pertaining to phonemic awareness covering Phoneme isolation, Phoneme blending, Phoneme segmenting, Phoneme deletion, Phoneme substitution and Phoneme manipulation are grouped under the following sections:

- Initial Sounds
- Final Sounds
- Medial Sounds
- Combining Sounds

1.5a Initial Sounds (IS)

The Learning modules in this section help the students to:

Isolate: initial, middle, and final phonemes - finding individual sound in words e.g. the initial sound in cat is /c/; middle sound in man is /a/; final sound in pop is /p/

Identify: phonemes in words: finding the same sound in cat, can, and cab - /c/

Blend: phonemes to form words: forming a word by listening to sequence of phonemes e.g. /c/ /a/ /b/ is cab

Segment words: break apart a word into separate sounds – pan is /p//a//n/

Delete: changing of initial, middle, or final phoneme in words

Substitute: replace initial/middle/final phoneme with a different phoneme

IS-1	Sound Pictures	
	Materials:	Mirror Pictures of lips, tongue, teeth (optional)
	Aim:	To show visually how sounds feel in one's mouth to help with phoneme articulation
	Presentation:	Teacher gives student a mirror asks him to lift it only when directed. The use of mirror is engaging but also this is how your brain recognizes those sounds. Auditory features and gestures are part of identification. Louisa Moats called this 'Mouth awareness.' Teacher: Mirror up, echo the sound /m/ while you look in the mirror. Student: Echoes /m/. Teacher: Are your lips together? Can you see your lips together? Student: Yes Continue with other sounds. Teacher: Mirror up and echo the sound /s/ as you look in the mirror. Are your teeth together? Can you see your teeth together? Do the same as above with the sound /a/ and ask the children: Is your mouth open? Can you see your mouth open?
	Extension:	Continue to review the above concepts for a few days until the students are very familiar with it. As an option, pictures of lips closed, teeth together and mouth open can be used to reinforce this concept.

IS-2	Same or Different Shapes?-Review	
	Materials:	Same (2 circles); different(circle, triangle) cards*
	Aim:	To teach 'same' and 'different' visually
	Presentation:	This module has already been done earlier in rhyming. It is repeated here for reinforcement. Teacher: Places the 'same' card (two circles) on the board or table. Point to the two circles and say – circle, circle. Student: Traces the circles in the air while saying it. They are the same. Teacher: Places the 'different' cards on the board/table. Student: Traces the circle, triangle in the air while saying - 'circle, triangle.' They are different. Teacher: Point to the 'same' card. Teacher: Point to the 'different' card. Teacher: shows the same and different cards What is this? Students: same, different. Continue this exercise until the students can identify these 'same and different' cards well.
	Extension:	Repeat with different shapes (provided) if the student needs more practice.

*See picture titled '**RMG-1**'

IS-3	Same or Different Sound Shapes?	
	Materials:	Examples* Same and different cards**
	Aim:	To show visually how sounds feel in one's mouth to help with phoneme articulation
	Presentation:	Review same and different cards before this activity and place them on the board. Teacher: Watch my mouth as I say some sounds. If my mouth looks the same, say 'same' while pointing to the 'same' card. If my mouth looks different, point to the 'different' card, and say 'different.' Teacher: Echo /m/,/m/ Student: Echoes /m/,/m/ Teacher: Is it same or different? Student: Same Look at examples on next page and continue for a few days until students can listen and recognize the sounds easily.
	Extension:	

*See examples on next page '**IS-3**'

See picture titled 'RMG-1**'

IS-4	Discovery of Consonants	
	Materials:	Mirror
	Aim:	To show visually how sounds feel in one's mouth to help with phoneme articulation
	Presentation:	Teacher reviews the 'lips closed, open, tongue and teeth' concept. Teacher: Listen and echo my sound; look at your mouth in the mirror and tell me how your mouth feels. Now, mirror up. Say /t/. Student: Echoes /t/ looking at the mirror. Teacher: What part of the mouth is used to make the sound. Student: Tongue and teeth. Teacher: Yes, the air flow is blocked by the tongue. For all the Consonant sounds, the air flow is blocked by either tongue, teeth or lips. /t/ is blocked by the tongue and teeth. Hence it is a blocked sound. A blocked sound is called a Consonant. Teacher: Put a hand on your throat. Say the sound again and tell me if there is any buzzing or vibration. Student: No buzzing or vibration Teacher: If there is no vibration, the sound is unvoiced. If there is vibration, the sound is voiced. Practice this with other consonant sounds.
	Extension:	

IS-5	Discovery of Vowels	
	Materials:	Mirror
	Aim:	To show visually how sounds feel in one's mouth to help with phoneme articulation
	Presentation:	Teacher reviews the 'lips closed, open, tongue and teeth' concept. Teacher: Mirror up; Listen and echo the sound. Look at your mouth in the mirror and tell me how your mouth feels. Teacher: Say /a/ (closed vowel sound – like in the beginning of 'apple.') Student: Echoes /a/ and looks in the mirror. Teacher: Is your mouth open or closed? Student: Mouth is open. Teacher: Is the air flow blocked by the tongue, teeth, or lips? Student: It is not blocked by anything. So, it is an unblocked sound. An unblocked sound is a Vowel. Teacher: Put a hand on your throat. Say the sound again and tell me if there is any buzzing or vibration. Student: There is buzzing/vibration, Teacher: If there is vibration, the sound is Voiced. Try it with all vowels. Student will discover that all vowels are voiced and unblocked.
	Extension:	

IS-6	Pulling Down Sounds	
	Materials:	Card with three squares template* 3 Counters List of sounds**
	Aim:	Auditory discrimination of beginning sounds Master left to right sequencing Preparation for reading, writing
	Presentation:	Give 3 counters to the student to be placed on the desk. Each counter represents a sound. Teacher: Listen and echo the sounds and move one counter for each sound starting from the square with the star. (Start with single sounds and slowly add more sounds.) Teacher: Echo /m/ Student: Echoes /m/ and then pulls down one counter while making the sound /m/ and places it on the left most side of the square (square with star). (After few individual sounds, give two sounds) Teacher: Now I will give you two sounds. Say /t/ Student: Echoes /t/ and pulls down a counter for /t/. Teacher: Say /a/ Student: Echoes /a/ and pulls down and places one more counter to the right of /t/, as he makes the sound /a/. Continue the same activity with 2,3, or 4 sounds.
	Extension:	Do this activity with more sounds.

*See template titled **'IS-6'**

See examples on next page **'IS-6'

IS-7	Sorting Objects/Pictures	
	Materials:	Pictures beginning with the same initial sound*
	Aim:	Auditory discrimination of initial sounds Preparation for reading
	Presentation:	Teacher picks three pictures beginning with the same sound. Teacher: Look at this picture of a 'mitten.' Echo mitten Student: Echoes 'mitten.' Teacher: What is the beginning sound you hear in 'mitten'. Watch my mouth as I say it again. Emphasize the initial sound, e.g., <i>m-m-m for mitten</i>. Student: Echoes m-m-m 'mitten.' The sound is /m/. Teacher: Repeat the same with two other pictures- mop, monkey Student: Echoes 'mop' /m/; 'monkey' /m/ Review these three pictures next day. When the student feels comfortable, add three more pictures beginning with another sound, each time asking the student to identify the name and initial sounds. Repeat, but this time mix pictures with different initial sounds. Introduce only single consonant sounds
	Extension:	Do the same activity with objects in the room. Point to an object in the room and ask the student to give the initial sound of that object.

*See picture titled 'IS-7'

IS-8	Guessing Game	
	Materials:	Objects in the environment Bag of objects/pictures beginning with different sounds
	Aim:	Reinforcement of initial sounds
	Presentation:	Teacher: We are going to play a guessing game. Listen to the clues and tell me the name of the object that I describe. Teacher: I am thinking of an object that begins with the sound t-t-t-t-t. Student: Echoes the sound /t/ Teacher: This object is a piece of furniture. It is made of wood or metal. You use this when at dinner time. Mostly it is found in the dining room or kitchen or sometimes it may be found outside. What object is it? Student: table. Teacher: That is correct. table /t/ Student: Echoes table /t/ You can Continue with several objects from the environment; a farm; home, etc.
	Extension:	1.Do the above game with objects in a basket. Teacher lines up the objects and follows the above presentation. 2.This can also be done with pictures displayed on the board; or objects in the school or home. Reuse IS-7 pictures.

IS-9	Identify Initial Sounds	
	Materials:	Sheet with words*
	Aim:	Auditory reinforcement of initial sounds
	Presentation:	Teacher: Say the word 'dog.' Student: Echoes - dog. Teacher: What is the first/initial/beginning sound that you heard? Student: /d/ The concept of first/initial/beginning would have been done with the Alphabet modules. Review that they all mean the same. (Continue with different words starting with cvc words and moving on to blends, digraphs)
	Extension:	Use words that belong to a house, school, farm, or park.

*See examples on next page **'IS-9'**

List of words (IS-9)

<i>Hand</i>	<i>/h/</i>	<i>Mary</i>	<i>/m/</i>
<i>Feet</i>	<i>/f/</i>	<i>paper</i>	<i>/p/</i>
<i>Mouth</i>	<i>/m/</i>	<i>coin</i>	<i>/c/</i>
<i>Elbow</i>	<i>/e/</i>	<i>axe</i>	<i>/a/</i>
<i>Toe</i>	<i>/t/</i>	<i>barn</i>	<i>/b/</i>
<i>Fingers</i>	<i>/f/</i>	<i>yarn</i>	<i>/y/</i>
<i>Nose</i>	<i>/n/</i>	<i>wagon</i>	<i>/w/</i>
<i>Lips</i>	<i>/l/</i>	<i>under</i>	<i>/u/</i>
<i>Face</i>	<i>/f/</i>	<i>up</i>	<i>/u/</i>
<i>Hair</i>	<i>/h/</i>	<i>snake</i>	<i>/s/</i>
<i>Head</i>	<i>/h/</i>	<i>insect</i>	<i>/i/</i>
<i>Tummy</i>	<i>/t/</i>	<i>gold</i>	<i>/g/</i>
<i>Nails</i>	<i>/n/</i>	<i>orange</i>	<i>/o/</i>
<i>Wrist</i>	<i>/r/</i>	<i>rainbow</i>	<i>/r/</i>

IS-10	Sound Pictures	
	Materials:	Several pictures * Card with three squares template** One counter
	Aim:	To isolate initial sounds visually and show where to place the sounds when you read Preparation for reading, writing
	Presentation:	Teacher: Pull out a picture from this bag. Place it above the card with the star. Student: pulls out a picture and places it above the card with the star. Teacher: Say the name of the picture. Student: Says the name of the picture- <i>cup</i> . Teacher: What is the initial sound? Student: Says the initial sound of the picture- /c/. Teacher: Say the initial sound and place the counter on the left most square (with star). Student: Places the counter on the left most square while saying the initial sound- /c/.
	Extension:	This can be done with objects.

*Use same pictures as **'IS-7'**

Use card template titled **'IS-6'

IS-11	Deleting Initial Sounds	
	Materials:	Names of people* or any objects
	Aim:	To identify missing initial sounds
	Presentation:	Teacher: Echo <i>Helen</i>. Student: Echoes <i>Helen</i>. Teacher: Now say <i>Helen</i> without the initial sound /h/. Student: <i>Elen</i>. Teacher: Say <i>Barry</i> without /b/. Student: <i>Arry</i>. Continue this with other names as given below. If the student is unable to do this in one step, split it into several steps. Teacher: Say <i>Helen</i>. Student: Echoes <i>Helen</i>. Teacher: What is the initial sound in <i>Helen</i>? Student: /h/ Teacher: Now say it without the initial sound /h/. Student: <i>Elen</i>
	Extension:	This game can be done with names of people, objects, countries, pets, etc.

*See examples on next page **'IS-11'**

List of names and objects (IS-11)

Matthew without /m/ is *atthew*

Steve /s/ *teve*

John /j/ *on*

Kathy /k/ *athy*

Laura /l/ *aura*

Monica /m/ *onica*

Denis /d/ *enis*

Pam /p/ *am*

Dog /d/ *og*

Fish /f/ *ish*

Cake /c/ *ake*

IS-12	Substituting Initial Sounds	
	Materials:	Names of people or pictures of people*
	Aim:	To focus on initial sounds and be able to manipulate it.
	Presentation:	Teacher: Echo the name <i>Page</i>. Student: Echoes <i>Page</i>. Teacher: Change /p/ in <i>Page</i> to /s/ Student: Replaces /p/ with /s/ in <i>Page</i>. It is '<i>Sage</i>.' Work with several names in this way. Some students may have problems with this. Break it down more. Say <i>Page</i>. Say <i>Page</i> without /p//age/ Now add /s/ to /age//sage/ Different faces of people cut out from magazines, or newspaper can be used.
	Extension:	This exercise can be done with names of objects; names of countries; names of pets, etc.

*See examples on next page **'IS-12'**

List of people names (IS-12)

Say *Harry*, change /h/ in *Harry* to /l/ (*Larry*)

Larry /l/ *Larry* /b/ (*Barry*)

John /j/ *John* /d/ (*Don*)

Hal /h/ *Hal* /s/ (*Sal*)

Laura /l/ *Laura* /m/ (*Maura*)

Gail /g/ *Gail* /l/ (*Lail*)

Jerry /j/ *Jerry* /b/ (*Berry*)

Jordan /j/ *Jordan* /g/ (*Gordon*)

Page /p/ *Page* /s/ (*Sage*)

Felix /f/ *Felix* /h/ (*Helix*)

Carla /c/ *Carla* /m/ (*Marla*)

IS-13	Odd Man Out	
	Materials:	List of words with sets of two/three same initial sounds and one with a different initial sound*
	Aim:	To reinforce the understanding of initial phonemes
	Presentation:	The student picks out the word that doesn't begin with the same sound. Teacher: Echo the words after me. <i>map, mad, cap</i> Student: Echoes <i>map, mad, cap</i> Teacher: Tell me the word that begins with a different initial sound. Student may be unable to guess the word with the different initial sound. Teacher: what do <i>map, mad</i> begin with? Student: /m/ Teacher: what does <i>cap</i> begin with? Student: /c/ So <i>cap</i> begins with a different initial sound than <i>map and mad</i>. For some students you may have to use only two words instead of three words beginning with the same sound and one word with a different beginning sound. Continue with the words on the next page.
	Extension:	This exercise can be done with names of siblings, pets, or objects.

*See examples on next page 'IS-13'

List of words (IS-13)

pig, pin, *Jill*, pit

met, meg, *bet*, men

dot, *not*, doll, dog

gas, gap, gal, *map*

Hal, had, hid, *bed*

sun, sum, sub, *luck*

dab, dam, dig, *hid*

fun, fad, fid, *tip*

tee, tip, *rap*, tag

fin, fish, fit, *will*

bin, bill, bid, *tat*

sit, sun, *run*, sin

bag, *sag*, bat, ban

IS-14	Scavenger Hunt	
	Materials:	Several assorted pictures taken from magazines or from the collections provided in this package
	Aim:	To reinforce the understanding of initial phonemes
	Presentation:	Teacher: Pulls out a picture from the bag and says this is the picture of an apple. Echo the word and tell me the initial sound. Student: Echoes apple and says /a/. Teacher: Gives the student the picture. Go around the room and find items that begin with the same sound. Student: Takes the picture of apple and looks around the room for objects that begin with /a/. Student: Returns to the table with 2-3 objects. Student places them on the table, names the pictures/objects and says the name of the object and its beginning sound.
	Extension:	This game can be done with an object in the bag instead of a picture.

1.5b Final Sounds (FS)

FS-1	Same Ending	
	Materials:	Basket of objects/pictures ending in the same phoneme
	Aim:	Auditory and visual reinforcement of ending sounds
	Presentation:	Teacher: Brings three objects/pictures ending in the same phoneme. Tell me the name of each object/picture. Student: Names each object-<i>cat, hat, bat</i> Teacher: What final sound do you hear in <i>cat, hat, bat</i>? Student: Says the final sound is /t/ in <i>cat, hat, bat</i>. Continue with three more objects/pictures with the same ending. Practice with several pictures/objects. When he can accurately say the final sound in objects or pictures, mix the two different sets of objects/pictures and ask him to sort it out by the same ending sound.
	Extension:	This can be done orally by giving words ending in the same sound.

FS-2	Deletion of Final Sounds in Syllables	
	Materials:	People names*
	Aim:	To become aware of individual sounds within syllables
	Presentation:	Teacher: Say <i>Jane</i>. Student: Echoes <i>Jane</i>. Teacher: Say <i>Jane</i> without /n/. Student: <i>Jay</i> Some students may have problems with this. Break it down more. Teacher: Echo <i>Page</i> and tell me the final sound in <i>Page</i>. Student: Echoes <i>Page</i> and says /j/. Teacher: Now say <i>Page</i> without the final sound /j/. Student: Says...../Pay/ Different faces of people cut out from magazines, or newspaper can be used. <i>Examples are given on the next page.</i>
	Extension:	This game can be done with objects in the room or words from the unit being studied.

*See examples on next page 'FS-2'

Some examples of names/objects (FS-2)

<i>Maid</i>	<i>without</i>	<i>/d/</i>	<i>is</i>	<i>may</i>
<i>Page</i>		<i>/j/</i>		<i>pay</i>
<i>Grace</i>		<i>/s/</i>		<i>gray</i>
<i>Dave</i>		<i>/v/</i>		<i>day</i>
<i>Jake</i>		<i>/k/</i>		<i>Jay</i>
<i>Ford</i>		<i>/d/</i>		<i>for</i>
<i>Blake</i>		<i>/k/</i>		<i>blay</i>
<i>Curt</i>		<i>/t/</i>		<i>cur</i>
<i>Zain</i>		<i>/n/</i>		<i>Zay</i>
<i>Kate</i>		<i>/t/</i>		<i>Kay</i>
<i>Mike</i>		<i>/k/</i>		<i>My</i>
<i>Maine</i>		<i>/n/</i>		<i>May</i>

FS-3	Deletion of Initial/Final Sounds in Syllables	
	Materials:	Names of pets or any objects or people*
	Aim:	To reinforce the understanding of final and initial phonemes
	Presentation:	Teacher: Echo <i>Jane</i>. Student: Echoes <i>Jane</i>. Teacher: Say <i>Jane</i> without /j/. Student: Says 'ane.' Teacher: Echo <i>Jane</i>. Student: Echoes <i>Jane</i>. Teacher: Say <i>Jane</i> without /n/. Student: Says <i>Jay</i>. <i>Continue with examples below.</i>
	Extension:	

*See examples on next page **'FS-3'**

List of objects (FS-3)

<i>Cat</i>	<i>without</i>	<i>/c/</i>	<i>is</i>	<i>at</i>
<i>Hal</i>		<i>/h/</i>		<i>al</i>
<i>Peter</i>		<i>/p/</i>		<i>eater</i>
<i>Lane</i>		<i>/n/</i>		<i>lay</i>
<i>Zoro</i>		<i>/Z/</i>		<i>oro</i>
<i>Della</i>		<i>/d/</i>		<i>ella</i>
<i>Nose</i>		<i>/z/</i>		<i>no</i>
<i>Feet</i>		<i>/t/</i>		<i>fee</i>
<i>Dug</i>		<i>/d/</i>		<i>ug</i>
<i>Soap</i>		<i>/p/</i>		<i>sow</i>
<i>Dame</i>		<i>/m/</i>		<i>day</i>
<i>Paid</i>		<i>/d/</i>		<i>pay</i>
<i>Cane</i>		<i>/c/</i>		<i>ane</i>

FS-4	Deleting and Changing Sounds	
	Materials:	People or pet or any names*
	Aim:	To reinforce and manipulate final phonemes
	Presentation:	Teacher: Echo <i>Page</i> Student: Echoes <i>Page</i>. Teacher: Say <i>Page</i> without /j/. Student: Says <i>pay</i>. Teacher: Add /l/ to <i>pay</i>. Student: Says <i>pale</i>. Some students may have problems with this. Break it down more. Teacher: Echo <i>Page</i> and tell me the final sound in <i>Page</i>. Student: Echoes <i>Page</i> and says /j/. Teacher: Now say <i>Page</i> without the final sound /j/. Student: Says...../Pay/ Teacher: Add /l/ to the end of /Pay/ Student: <i>Pale</i> Work with several names in this way. A magazine, or a poster of different faces can be used.
	Extension:	Once they are comfortable with this exercise, give them the initial or final sounds of objects/pictures in the room and guess the name.

*See examples on next page **'FS-4'**

List of words (FS-4)

Say	<i>maid</i>	instead of	/d/	say	/l/	<i>mail</i>
	<i>Page</i>		/j/		/d/	<i>paid</i>
	<i>Grace</i>		/s/		/d/	<i>grade_</i>
	<i>Dave</i>		/v/		/m/	<i>dame</i>
	<i>Hope</i>		/p/		/s/	<i>hose</i>
	<i>Class</i>		/s/		/p/	<i>clap</i>
	<i>Sam</i>		/m/		/d/	<i>sad</i>
	<i>Prod</i>		/d/		/m/	<i>prom</i>
	<i>Seen</i>		/n/		/d/	<i>seed</i>

FS-5	Take It Out	
	Materials:	List of words with sets of two/three same endings and one with a different ending*
	Aim:	To reinforce the understanding of final phonemes
	Presentation:	Teacher: Echo <i>cat, mat, pan, fat</i> Student: Echoes <i>cat, mat, pan, fat</i> Teacher: Pick out the word with a different ending....'<i>pan</i>' If the student is unable to pick out the correct word, present only three words. For some students, break it down even more. Teacher: Echo <i>cat, mat, pan, fat</i> Student: Echoes the words. Teacher: What sounds do <i>cat, mat, fat</i> have in the final position? Student: /t/ Teacher: what does <i>pan</i> end in? Student: /n/ So, <i>pan</i> ends with a different final sound than <i>cat, mat and fat</i>.
	Extension:	This exercise can be done with names of people, pets, pictures, or objects in class.

*See examples on next page 'FS-5'

List of words (FS-5)

pig, jig, dig, **Jill**

met, **beg**, bet, net

dot, not, lot, **log**

as, gas, **gap**, has

had, hid, **not**, bed

so, **day**, no, go

cam, dam, ram, **hid**

ruff, muff, **rum**, deaf

tree, **eat**, three, be

stack, back, pack, **log**

fish, dish, **ditch**, wish

shrill, bill, drill, **fit**

FS-6	Final Sound Addition	
	Materials:	List of words*
	Aim:	To reinforce the understanding of final phonemes
	Presentation:	Teacher: Sometimes a new word can be created by adding a sound to the end of a word. Teacher: Echo <i>boo</i>. Student: Echoes <i>boo</i>. Teacher: Add /t/ to <i>boo</i>. What is the new word? Student: Echoes <i>boo—t</i> and says <i>boot</i>. Continue with the list of words in the same fashion.
	Extension:	

*See examples on next page **'FS-6'**

List of words (FS-6)

<i>Coal</i>	<i>add</i>	<i>/d/</i>	<i>new word is</i>	<i>cold</i>
<i>Bee</i>		<i>/t/</i>		<i>beet</i>
<i>Go</i>		<i>/t/</i>		<i>goat</i>
<i>See</i>		<i>/m/</i>		<i>seem</i>
<i>Bee</i>		<i>/n/</i>		<i>bean</i>
<i>Far</i>		<i>/m/</i>		<i>farm</i>
<i>No</i>		<i>/s/</i>		<i>nose</i>
<i>See</i>		<i>/d/</i>		<i>seed</i>
<i>Tie</i>		<i>/m/</i>		<i>time</i>
<i>Rye</i>		<i>/d/</i>		<i>ride</i>
<i>Row</i>		<i>/d/</i>		<i>road</i>
<i>Moo</i>		<i>/n/</i>		<i>moon</i>
<i>Lay</i>		<i>/t/</i>		<i>late</i>
<i>Tie</i>		<i>/t/</i>		<i>tight</i>
<i>Bow</i>		<i>/n/</i>		<i>bone</i>

1.5c Medial Sounds (MS)

MS- 1	Find the Vowel Sounds	
	Materials:	List of words*
	Aim:	Auditory reinforcement of the understanding of medial phonemes
	Presentation:	Review medial sound from Alphabet modules. Teacher: Echo <i>bag</i> (say the /a/ little louder.) Student: Echoes <i>bag</i>. Teacher: What medial sound did you hear? Student: Says /a/. Examples of words are given on the next page. Work with all five vowels.
	Extension:	This exercise can be done with pictures of cvc words and ask the student to identify the medial sound after echoing the words in the pictures. Give a vowel and ask student to make a cvc word.

*See examples on next page 'MS-1'

List of words (MS-1)

<i>mad</i>	<i>jig</i>	<i>fax</i>
<i>pad</i>	<i>leg</i>	<i>kit</i>
<i>jam</i>	<i>den</i>	<i>lip</i>
<i>Jim</i>	<i>men</i>	<i>dull</i>
<i>rim</i>	<i>sit</i>	<i>pug</i>
<i>dog</i>	<i>am</i>	<i>sub</i>
<i>log</i>	<i>bin</i>	<i>mop</i>
<i>dip</i>	<i>fog</i>	<i>rod</i>
<i>bed</i>	<i>Don</i>	<i>gas</i>
<i>hen</i>	<i>pog</i>	<i>had</i>
<i>sun</i>	<i>fun</i>	<i>beg</i>
<i>mud</i>	<i>dug</i>	<i>fit</i>

MS-2	Change the Vowel Sounds	
	Materials:	List of words with CVC sounds* Counters to represent sounds
	Aim:	Auditory & Visual reinforcement of medial phonemes
	Presentation:	Teacher: Echo the word <i>net</i>. Student: Echoes <i>net</i>. Teacher: Place the 3 counters touching each one saying /n/ /e/ /t/ Teacher: What medial sound did you hear? Student: /e/ Teacher: Change /e/ to /i/, what is it? Student: Says the new word <i>nit</i>. <i>For some students this may take some time to grasp. Change /a/ to /i/ for a few days and then move on to the next vowel and so on.</i> Continue with other words.
	Extension:	Once the student is comfortable with this exercise, give pictures with missing medial sounds for the student to fill. More games can be found in the book, "Listening Games for Elementary Grades" By M. J. Maxwell

*See examples on next page **'MS-2'**

List of words (MS-2)

/a/	mat	/i/	mitt
/a/	pan	/i/	pin
/i/	sit	/a/	sat
/i/	bit	/a/	bat
/i/	rip	/a/	rap
/u/	rub	/i/	rib
/u/	bud	/e/	bed
/o/	got	/e/	get
/o/	rot	/a/	rat
/e/	pet	/a/	pat
/e/	sip	/a/	sap
/e/	pen	/i/	pin

1.5d Combining Sounds(CS)

CS - 1	Put the Sounds Together	
	Materials:	Pictures of words with 2 sounds* 2 counters Card with three squares template**
	Aim:	Auditory reinforcement of sounds Analyze syllables into phonemes Preparation for reading, writing
	Presentation:	Counters represent sounds. Teacher: shows a picture of an ax. Let us see how many sounds this word has. Say /a/...../x/ (with a pause between the two letters) Student: Echoes /a/...../x/ Teacher: Watch how I move the counters. Each counter represents a sound. Say /a/ and move one counter down and say /x/ and move it to the right of /a/. Student: echoes and does the same with the counters. It has two sounds. Teacher: Yes, it has two sounds. Run your fingers under from left to right and say /a/ and (hold your breath until you touch) /x/. Say /ax/. Student: Echoes /ax/. Student practices with several pictures. Show the next picture and ask the student to pull down a counter for each sound.
	Extension:	Start off with two (vc) sound words and then expand to three (cvc) sound words. This exercise can also be done by giving words with two sounds orally.

*See pictures titled '**CS-1**'

See card template titled 'IS-6**'

CS-2	Count the Sounds	
	Materials:	Pictures of words with 2 sounds* Words with 2 or 3 sounds** Counters Card with three squares template***
	Aim:	Awareness of phonemes Direct preparation for reading, writing
	Presentation:	Teacher: Today you will count the sounds in the words. Counters represent the sounds. Teacher: Say <i>ta-</i> (closed sound for /a/) (very slowly and deliberately, <i>t---a</i>) Student: Echoes <i>t—a</i>. What is the first sound you hear? Student: /t/ Teacher: Yes, it is /t/. Pull down a counter as you echo /t/. Student: Pulls down a counter saying /t/. Teacher: What is the second sound in <i>t—a</i>? (/a/ as in <i>apple</i>) Student: /a/. Teacher: Yes, /a/. Pull down another counter while saying /a/. Student: Pulls down another counter while saying /a/. Teacher: Run your finger from left to right and say /ta-/. Student: Do the same. Teacher: Two counters represent the two sounds /t/,/a/. Repeat the same procedure with the other pictures/words.
	Extension:	Show pictures or objects and ask to name and count the sounds.

*See pictures titled 'CS-1'

**See examples on next page 'CS-2'

***Use card template titled 'IS-6'

List of words (CS-2)

Ta__ (2)	Eye (1)	<i>cup (3)</i>
Ma__ (2)	Knee (2)	log (3)
Pa__ (2)	Bee (2)	Pig (3)
Pi__ (2)	Tie (2)	Sun (3)
Si__ (2)	See (2)	Coat (3)
Lo__(2)	Bow (2)	Log (3)
Ro__(2)	Egg (2)	Row (2)
Up (2)	It (2)	If (2)
Key (2)	Ad (2)	Toe (2)
Cat (3)	Rag (3)	Boat (3)

CS-3	Make a word -Body Coda Blending (with objects)	
	Materials:	Set of objects with one syllable words
	Aim:	To learn to blend words using body coda Preparation for reading
	Presentation:	Teacher: Today you will look at some objects and learn to divide the words into 'body' and 'coda.' 'Body' is all the sounds up to and including the Vowel. 'Coda' is all the sounds after the vowel. Teacher: This is a <i>hat</i>. We will divide <i>hat</i> into body and coda. Body is /<i>ha</i>/ Coda is /<i>t</i>/ <i>Ha---t</i> Student: Echoes <i>ha---t</i>. Now your turn. This is a <i>pig</i>. Body is <i>pi</i> Coda is <i>g</i> <i>Pi---g</i> Student: echoes <i>pi---g</i>. Continue with several one syllable objects.
	Extension:	Practice with the names of objects in the classroom. Teacher may want to start off with /<i>a</i>/ as the vowel and slowly move on to the other vowels. This is great preparation for reading.

CS-4	Make a word -Body Coda Blending (with pictures)	
	Materials:	Set of one syllable picture cards* Word list**
	Aim:	To learn to blend words using body coda Preparation for reading
	Presentation:	Teacher: This is the picture of a net. Teacher: Let us divide the word <i>net</i> into 'body' and 'coda.' Review: Body is all the sounds up to and including the Vowel. Coda is all the sounds after the vowel. Teacher: Body is /ne/ Coda is /t/ Ne---t Now your turn. The picture is mat Student: <i>Mat</i> Body is <i>ma</i> Coda is <i>t</i> Ma---t Continue with several words with one syll. pictures.
	Extension:	Give clues for words and student can guess the word and then divide into body and coda. For example, I am thinking of an animal that slithers and could be poisonous. What is it? Yes, snake. Sna—ke More abstract way is to give student some words and ask to divide it into 'body and coda.' (List on next page) This is great preparation for reading.

*See pictures titled 'CS-4'

****Word examples on next page 'CS-4'**

List of words (CS-4)

<i>fo-x</i>	<i>boo-k</i>	<i>ba-t</i>	<i>ne-t</i>
<i>bo-x</i>	<i>fee-t</i>	<i>a-x</i>	<i>se-t</i>
<i>pi-n</i>	<i>hea-t</i>	<i>do-t</i>	<i>lo-g</i>
<i>ti-n</i>	<i>do-g</i>	<i>bee</i>	<i>mu-g</i>
<i>ta-p</i>	<i>la-ss</i>	<i>lo-ck</i>	<i>pi-g</i>
<i>ma-p</i>	<i>ji-g</i>	<i>ro-ck</i>	<i>fi-t</i>
<i>ga-p</i>	<i>bi-ll</i>	<i>u-p</i>	<i>ma-c</i>
<i>ba-g</i>	<i>see-d</i>	<i>ba-ke</i>	<i>li-ck</i>
<i>cha-p</i>	<i>dre-ss</i>	<i>sna-ke</i>	<i>ma-tch</i>

2 Alphabet (AL)

The knowledge of letter names and their shapes is an important precursor and a predictor of future ability to read and spell. The alphabetic principle is critical in beginning reading and is the relationship between letters of the written language and spoken words.

Students are not always automatically aware of the relationship between upper and lower-case letters. These must be taught at the preschool level.

Learning modules in this section include the following and all are taught with fun games, songs and by auditory, visual, and kinesthetic ways.

Names of letters

Shapes of letters

Sequencing

Concept of Consonants

Concept of Vowels

Upper and Lower-case letters

AL-1	Introduction to the Alphabet Uppercase	
	Materials:	The Alphabet Mat A set of Upper-Case plastic letters (blue)
	Aim:	Familiarize the student with the letters and sequence of the alphabet Introduce the terms first/initial, last/final, middle, and medial 26 letters in total; 13 letters in the first half and 13 letters in the last half
	Presentation:	Teacher: Points to the uppercase letters on the chart and says these are the letters of the alphabet. Each letter has a name. The name of the letter will always stay the same. Get your mat out. Student: Gets the mat out. Teacher: Touch and count each letter. How many letters are in the alphabet? Student: There are 26 letters in the alphabet. Teacher: A is the first or initial or beginning letter of the alphabet. Z is the last or final or the ending letter. Place A and Z on the arc. Student: Places A and Z on the arc and echoes A is the initial letter and Z is the final letter. Teacher: Let's find the middle of the alphabet. Touch one finger on A and one finger on Z at the same time. Now touch each letter as you move toward the middle. Stop when you get to M. The middle is between M and N. The middle means something should divide into two equal parts or halves. Place the letters M and N on the arc. Student: follows directions. Teacher: Let's count the letters A through M. There are 13. Now the letters between N and Z. There are 13. All letters between A and Z are called medial. Student: Echoes the same.
	Extension:	

AL-2	Sequential Placement - Uppercase	
	Materials:	The Alphabet Mat A set of Upper-Case plastic letters (blue)
	Aim:	To sharpen the student's knowledge of the names of the letters of the alphabet The sequence of the alphabet
	Presentation:	Teacher: Take out your upper-case side of the alphabet mat. Student: Gets the mat out. Teacher: Touch each letter of the alphabet as I say the name. Together: Teacher and the student will say: A is the first/initial letter; Z is the last/final letter; M and N are the middle letters; All the letters between A and Z are called medial letters; There are 26 letters in all; 13 in the first half and 13 in the last half; Teacher: Take out all the blue upper-case plastic letters and lay them on the mat. Turn all letters to the smooth side. Place A and Z on the arc; Then place M and N on the arc; Touch A again and start to name and place each letter. Student: Places the letters as above.
	Extension:	

AL-3	Sequential Placement - Review	
	Materials:	The Alphabet Mat A set of Upper-Case plastic letters (blue)
	Aim:	Sharpen the student's knowledge of the names of the letters of the alphabet and the sequence of the alphabet Goal is for each student to finish in 3 minutes or less.
	Presentation:	This is a more abstract review of the alphabet. Teacher: Take your alphabet mats out. Student: Takes out mat with the uppercase letters side. Teacher: Touch each letter of the alphabet as I say the name. Together: Teacher and Student A is the first/initial letter; Z is the last/final letter; M and N are the middle letters; All the letters between A and Z are called medial letters; There are 26 letters in all; 13 in the first half and 13 in the last half Teacher: Take out all the blue upper-case plastic letters and lay them on the mat with the smooth side up. Student: Takes out all letters and places them on smooth side. Teacher: Place A and Z on the arc; Then place M and N on the arc; Touch A again and start to name and place each letter on the arc. Student: follows directions.
	Extension:	

AL-4	Sequential Placement - Lowercase	
	Materials:	The alphabet mat A set of (red) lower-case plastic letters
	Aim:	To introduce the lower-case letters
	Presentation:	Teacher: Look at the letters and see if there is any difference. These are called lower-case letters. Review concepts taught previously with the upper-case letters. Teacher and Student together: a is the first/initial letter; z is the last/final letter; m and n are the middle letters; All the letters between a and z are called medial letters; There are 26 letters in all; 13 in the first half and 13 in the last half; Teacher: Take out all the red lower-case plastic letters and lay them with the smooth side on the mat. Place <i>a</i> and <i>z</i> on the arc; Then place <i>m</i> and <i>n</i> on the arc; Touch <i>a</i> again and start to name and place each letter on the arc. Student: Follows directions.
	Extension:	

AL-5	Uppercase and Lowercase letter placement Review	
	Materials:	The Alphabet Mat with Upper-Case letters side A set of (blue) upper-case plastic letters A set of (red) lower-case plastic letters
	Aim:	To compare the upper and lowercase letters Goal is for every student to finish in 4 minutes or under
	Presentation:	Teacher: Reviews concepts taught previously. A is the first/initial letter; Z is the last/final letter; M and N are the middle letters; All the letters between A and Z are called medial letters; There are 26 letters in all; 13 in the first half and 13 in the last half; Teacher: Take out all the blue uppercase plastic letters and lay them with the smooth side on the mat. Place 'A and Z' on the arc; Then place 'M and N' on the arc; Touch 'A' again and start to name and place each letter on the arc. When finished lay the lowercase letters under the appropriate uppercase letters. Student: Follows directions.
	Extension:	

AL-6	Names of Vowels	
	Materials:	The alphabet mat A set of red lower-case plastic letters Purple vowels Mirrors for each student Song sheet*
	Aim:	To teach the names of Vowels
	Presentation:	Teacher: Place the alphabet mat on the table. Turn all letters to the smooth side. Look at the two different colors. (Go over concepts already taught in AL-4.) Student: Places all the letters with smooth side up. Teacher: Let us look at the purple letters, name each one of them. a, e, i, o, u These letters are called Vowels . Student: Echoes <i>Vowels</i> . Teacher: Place the vowels on the arc and touch and say the names. Student: Follows directions.
	Extension:	For variation, teach them the name of the vowels through the nursery rhyme tune of BINGO. Mix the consonants and vowels and ask the student to pick a letter and identify if it is a vowel or a consonant.

*See song on next page **'AL-6'**

Vowel Song: (AL – 6)

(Sung to the tune of 'BINGO')

I know the Vowels of the alphabet

And all 5 of their name ohs!

a,e,i,o,u - a,e,i,o,u - a,e,i,o,u and

Vowels are their name ohs!

AL-7	Before and After Hand	
	Materials:	Alphabet mat- Lowercase side Student's hands (Left Hand – Before Hand, Right Hand – After Hand)
	Aim:	To teach the concept of before and after
	Presentation:	Teacher: Place your mat in front and place both your hands on the mat. Point to the letter m. Your left hand is on the letter m. This is called the beforehand. Do 3-Period lesson. Demonstrate that l comes before m; d comes before e, etc. Do lots of examples and review daily. Your right hand is on the letter n. This is called the after hand. Do a 3-Period lesson. Demonstrate that n comes after m; p comes after o, etc. Do lots of examples and review daily. (For some students this concept may take longer to understand than others. In that case, do only before concept for a few days and then introduce the after concept.)
	Extension:	Objects may be used for reinforcement. Place some objects and name them. Ask student to touch the object that comes before or after another object. This is a great exercise to do with numbers, colors, etc.

AL-8	New Alphabet Review	
	Materials:	alphabet mat (lower-case) Foam shaped hands with before and after written on them/ students can use their hands
	Aim:	To reinforce alphabet concepts previously taught Before, after, initial, final, medial, middle, vowels, consonants
	Presentation:	Teacher: Place your mat showing the lowercase letters on the table. T: Echo after me. S: Echoes the following mantra. There are 26 letters in the alphabet; There are two kinds of letters in the alphabet: <u>Vowels and Consonants</u> ; The vowels are 'a e i o u'; a is the initial letter ; z is the final letter; m and n are the middle letters; The letters between a and z are medial letters. New addition to the old mantra: My left hand is my 'before hand' My right hand is my 'after hand'
	Extension:	

AL-9	Shapes of the letters	
	Materials:	Pipe cleaners shaped: horizontal, vertical lines; diagonal; crisscross; camel hump; full circle; half circle; Song sheet*
	Aim:	To introduce the shapes/lines found in the 26 letters Indirect preparation for writing
	Presentation:	Teacher: Holds up each shape and asks the student to point to the shapes and echo the names. Student: Echoes the teacher. This is 'Horizontal' This is 'Vertical' This is 'Diagonal' This is 'Criss-Cross' (with 2 diagonals) This is 'Half circle' This is 'Full Circle' This is 'Camel hump' These are the strokes and curves used to make all the manuscript letters. Do a 3-period lesson with these strokes. Practice this for a few days in different ways.
	Extension:	This activity can be done using their arms or full body or wikki stix; playdoh, or yarn . *Review the shapes by using a nursery rhyme tune called 'Frere Jacques.'

*See song on next page '**AL-9**'

Shape song (AL-9)

(Sung to the tune of Frere Jacques)

Horizontal, Horizontal

Up Down, Up Down

Diagonal, Diagonal

Criss-cross; Criss-cross

Full circle, Full circle

Half circle, Half circle

Camel hump; camel hump

Helps to learn

The shapes of all letters

AL-10	Listen, Look and Say	
	Materials:	Alphabet Chart Set of blue plastic Upper-Case letters in a bag
	Aim:	To identify letters by looking Review of the previous lesson Indirect preparation for reading, writing
	Presentation:	Teacher: Bring your mat with Upper-Case letters side. Student: Places the mat on the table. Teacher: Look at your mat. I will pull a letter from the bag but will not show you. I will describe the strokes of the letter that I pull. Listen, look and tell me what letter is being described. This letter has a vertical line and a short horizontal line on the top . What letter is it? Student: Listens to the description, looks at the mat and thinks. The letter is T . Teacher: Place T on the arc while naming it. Student: Places T on the mat while naming it. Teacher will describe several letters. This goes on for a few days.
	Extension:	Student can describe it to the teacher and ask to guess the letter.

AL-11	Guess the Letter by Feel	
	Materials:	Either Upper-Case or lower-case Alphabet Mat Set of plastic Upper-Case/ lower-case letters in a bag
	Aim:	To identify letters by feel Internalization of the shapes of letters
	Presentation:	Teacher: Bring your mat and a set of lower-case letters Pull out a letter from the bag, feel the shape of the letter and try to guess the name of the letter. Student: Feels the letter, names it and then places it on the arc. (While feeling a letter, student can verbalize the shape.) Student: Pulls out another letter and feels it, guesses the name and places it on the same letter on the arc while naming it. Continue until all the letters are gone.
	Extension:	Teacher and student can take turns to do the same game.

AL-12	Let Go of the 'Z'	
	Materials:	Alphabet mat either upper or lower-case side One set of upper/lower-case letters in a bag to be used as the draw bag
	Aim:	To reinforce the sequencing skills by sight Indirect preparation for reading, writing
	Presentation:	Teacher: Place all the letters on the arc from <i>a</i> through <i>z</i> . Student: Places all the letters. Teacher: We will play a game today. Each of us will take turns taking two or three letters at a time saying its name and placing it in the bag. Student: Begins picking letters <i>abc</i> while naming them and placing them in the bag. Teacher: Picks saying the letters <i>de</i> and places the letters in the same bag. The teacher and student will alternate until the end. The ultimate object of this game is not to say 'z'.
	Extension:	This game can be played in another way. It is called 'take the z' . This game is played the same way as above. The only variation is that the player who says the 'z' will be the winner.

AL-13	Race to finish	
	Materials:	Alphabet Mat either upper or lower-case side One set of upper/lower-case letters in a bag to be used as the draw bag
	Aim:	To identify position of letters in the alphabet Before and after
	Presentation:	Teacher: Place your alphabet mat on the table. We will play another game. Each of us will draw 13 letters from a bag of upper/lower-case letters. We will place the letters on the table in front of us. Teacher: Pick one letter and place it on the arc. Student: Places g on the arc. Teacher: Picks a letter s from her pile and places the letter on the same mat. Now the arc has two letters on it. E.g., g, s Teacher: Look at your letters to see if you have a letter that goes before or after one of the letters placed on the mat i.e., g or s. Student: Places f in the appropriate place on the arc and says.... f comes before g. The players take turns placing the letters before or after the letters placed while verbalizing what each one does. The first player to place all the letters wins.
	Extension:	Teacher picks a letter and ask what comes before and after that letter.

AL-14	Nearest to Z or A	
	Materials:	Alphabet Mat One set of upper-case/ lower-case letters in a bag to be used as the draw bag
	Aim:	To identify position of letters in the alphabet Before and after
	Presentation:	Teacher: Place the mat on the table. Student: Places the mat on the table. Teacher: You will draw one letter from this bag and place it on the arc. Student: Draws a letter f from the bag. Teacher: I will draw my letter and place it on the arc. My letter is s. <i>s is nearer to z than f. I will get both the letters.</i> Student: Pulls out another letter y. Teacher: Pulls out m. Student: y is closer to z than m. I will get both the letters. This continues until all the letters are used. The player with the greatest number of letters wins.
	Extension:	This game can be played ' nearer to A ' in a very similar manner.

AL-15	Letter Snoop	
	Materials:	Alphabet Mat One set of plastic lower-case or upper-case letters placed on board
	Aim:	To identify position of letters in the alphabet Fluency in naming letters
	Presentation:	Teacher: Place lowercase letters on the arc of the alphabet mat. Touch and say the names of the letters. Student: Follows directions. Teacher: Close your eyes and I will take off one letter from the arc. You will guess what letter it is by looking at the chart. (The letters are pushed back so there are no gaps.) Student: Opens eyes and names the missing letter. (If unable to name the letter, then have him touch each letter and say until he discovers the missing letter.) Teacher: Put the letter back on the mat and play again. This game can be continued by taking more than one letter at a time.
	Extension:	

AL-16	Ten Questions	
	Materials:	Alphabet Mat One set of blue or red plastic letters
	Aim:	To identify position of letters in the alphabet Fluency in naming letters
	Presentation:	Teacher: Place the letters on the arc and touch and name each letter. Student: Places letters on the mat and touches and names each letter. Teacher: I am thinking of a letter. I want you to guess it. You may ask me questions but the answers to them may only be “yes” or “no” answers. You will get ten turns to guess the name of the letter. Take off the letters as they are eliminated. Examples of questions to ask: Is your letter in the first half of the alphabet? Is the letter made up of only straight lines; does it have up & downs; or circles? Is the letter a vowel? Does it come before ____? Is it in the group of 3 letters? The object of the game is to guess the letter by asking ten questions or less.
	Extension:	Another way to play is to cross out the eliminated letters using a dry erase marker. If using a temporary paper strip, the eliminated letters can be cut off. The last letter will remain.

AL-17	Alphabet Dice Roll and Name	
	Materials:	Alphabet Mat Alphabet Dice a set of upper-case/lower-case letters
	Aim:	To become more fluent in naming letters
	Presentation:	Teacher: Place the Alphabet Mat on the table. Place all the uppercase/lowercase letters on the mat. Student: Follow directions. Teacher: Roll the dice and name the letters. Find the plastic letters and place them on the arc. Student: Rolls dice, names the letters and places them on the arc.
	Extension:	Another variation would be to place all the letters on the arc before rolling the dice. When the dice is rolled that letter could be taken out of the arc. Another game is where there are several dice with letters on them. Roll all the dice and student takes 2 dice. The dice will be placed on the table. Student must name the letters from the first die to the next. If a student picks <i>g</i> and <i>k</i> he will have to name all the letters from <i>g</i> to <i>k</i> . One more extension will be to roll the dice. Name the letter that comes before/after that rolled letter.

AL-18	Bean Bag Toss	
	Materials:	Alphabet Mat
	Aim:	To become more fluent in naming letters
	Presentation:	Teacher: Place the alphabet mat on the table. Student: Places the mat facing him so that the letters are clearly visible. Teacher: We will toss this ball to each other while naming the letters in ones, twos, or threes. Game #1 Teacher: Tosses the beanbag to the student and says <i>A</i>. Student: says <i>B</i> and tosses the beanbag back to the teacher. Continue until a player gets to Z. This game will finish in one round. Game #2 Players say two letters of the alphabet. “AB---CD---EF—” This game will finish in two rounds. Game #3 Players name three letters. “ABC---def---ghi—”. This game will finish in three rounds.
	Extension:	This game can be done with cluster of 4-5 letters like: ABCD---EFGH—etc.

AL-19	Alphabet Talk	
	Materials:	Make small cards with punctuation marks for period, question, exclamation, and comma Sheet with letters written with punctuation marks*
	Aim:	To learn to use the correct intonation while speaking, reading, and writing Introduction to punctuation marks Indirect introduction to reading
	Presentation:	Teacher: Today we will learn to use marks called punctuation marks to make meaning of sentences clear. These marks will help the listener and the reader understand what you are saying. These marks are used every day for writing. We will talk about four marks. (Note: Each letter is treated as a word or a syllable for this exercise.) Introduce one punctuation mark at a time. Period (.) Used to end a sentence. ABC. DEF. GHI. JKL. MNO. PQR. Exclamation (!) Used to end a sentence that is exciting or said loudly! ABC! DEF! GHI! JKL! MNO! PQR!..... Question mark (?) Used to ask a question. ABC? DEF? GHI? JKL? MNO? PQR?..... Comma (,) Can be used in many places to indicate a pause. ABC, DEF, GHI, JKL, MNO, PQR..... Once all the 4 marks are introduced, say a group of letters as if in conversation.
	Extension:	Read a book with punctuations and ask the students to use gestures for punctuations.

*See examples on next page 'AL-19'

Alphabet Talk- AL-19

ABC. DEF? GHI! JKL. LMN? OPQ! RST. UVW? XYZ!

AB? CDE. FG! HIJ? KL. MNO! PQ? RST. UV! WX? YZ.

abc! de. fgh? ijk! lmn? op. qrs? tuv! wx. yz?

Variations:

1. Conversation
Abc de fgh, ij klm nop?
Qrs, tuv, wxy z!
2. This can be done using gestures.
Make a fist for period, take a breath for comma,
Hands up for exclamation, and hands in air for question
3. Use the alphabet mat and students can come up with
conversations with their partners.

AL-20	Alphabet Accent	
	Materials:	Alphabet mat
	Aim:	To recite alphabet with accents with a visual reference Movements Indirect preparation for syllables Preparation for writing and reading
	Presentation:	Teacher: Says A B C D E F G H I J K L M N O P Q R S T U V W X Y Z I recited the alphabet with a change, what is it? Student: One was loud and other one was soft. Teacher: Yes, I said A louder and B softer. My voice went higher. This is called an Accent. In English words are said with an accent. Let us accent the first and not accent the second and so on. A B C D E F G H I J K L M N O P Q R S T U V W X Y Z Next is to accent on the second letter and not on the first. A B C D E F G H I J K L M N O P Q R S T U V W X Y Z This can be done looking at the mat. It can be done by jumping up for accent and on the floor for no accent ; Make it fun by doing movements.
	Extension:	Say the alphabet in pairs (AB, CD) and accent the first pair and not accent the second and so on. Say the alphabet in threes (ABC, DEF) and accent the first and not the second chunk. Do these also with movements.

AL-21	Alphabet Triplets – Missing letter	
	Materials:	Alphabet mat Alphabet deck with the end letter missing (ab--, cd--)
	Aim:	Reinforce the sequence
	Presentation:	Teacher: Take out your alphabet mat. Student: Places the mat in front on the table. Teacher: Look at this card and name the sequence. (Even though only one letter is missing, the student will say the letters on the card and the missing letter.) Present it in order the first time. e.g., ab<u>c</u>, def<u>g</u>hi<u>l</u> etc Student: Says ab<u>c</u>, def<u>g</u>hi<u>l</u> If the student accurately names the sequence, shuffle the cards and present the cards randomly.
	Extension:	This can be done with the first letter missing or the middle card missing. This may be a challenge for some students.

AL-22	Alphabet Recognition	
	Materials:	AL22a, AL22b, AL22c Charts on following pages*
	Aim:	Recognition of letters
	Presentation:	Teacher: Holds up the chart one at a time. Name the letters on the chart going from left to right. Student: Names the letters from left to right. If the student is unable to recall, go back to the Alphabet modules to reinforce the names. Chart AL 22c is for making more reviews.
	Extension:	

*See the charts on the next three pages **'AL 22a, AL 22b'**

3 Phonics (P)

Phonics is the relationship between the phonemes(sounds) and the graphemes (letters) that represent these sounds. This phonics knowledge is used to help to recognize words when reading and spell words when writing. A phoneme is the smallest unit of sound that distinguishes one word from another. Graphemes are the written representation of letters. In phonics instruction the student learn that the letter d makes the sound /d/. Students need to have a strong phonics base to become skilled readers. There are 26 graphemes but 45 phonemes as some letters have more than one sound. Phonics should be taught very systematically and explicitly.

The letters are presented in the following order to students:

m	t	a	s	b	c	---	Red
n	l	i	r	f	p	---	Yellow
h	g	o	k	d		---	Green
j	x	e	v	z		---	Orange
w	u	qu	y			---	Blue
ch	ck	th	th	sh		---	Purple

All sounds are introduced using the three pathways – auditory, visual, kinesthetic, and tactile (VAKT) modes at the same time. When the information is received through more than one sensory pathway, there is an increased learning and retrieval.

Sandpaper letters help to gain muscular memory of the shape of letters. Using a sand tray, rice, salt tray, foam or any other medium will ignite the multiple learning pathway in the brain.

The sandpaper letters and the phonogram cards are **color coded** for the letters as noted above.

It is ideal to start from the top cluster (red) and then move on to the next. Introduce **three sounds each day** to a student. The following day these sounds are reviewed and if the student shows progress, the next three sounds can be introduced.

Each sound is reviewed at the start of every lesson. Hence new sounds are introduced while folding in the old sounds – systematic and cumulative.

The Learning modules in this section address Phoneme introduction, Keyword introduction, Concept of Consonants, Concept of Vowels, and Pre-writing skills.

Appendix 3 provides content for creation of **Phonogram and Keyword cards** that will be used in the learning modules presented in this section.

P-1	Sound Introduction-Day 1	
	Aim:	To develop auditory, visual, kinesthetic perception of letter sounds
	Presentation:	Discovery Teacher: Take out your mirror. Look at your mouth in the mirror as you echo tiger, top, table. What initial sound do you hear in tiger, top, table? Student: Echoes tiger, top, table looking at the mirror. Says..... /t/ Teacher: Is the Airflow blocked by the tongue, teeth, or lips? Student: Says tongue. Teacher: Shows the sandpaper letter t. This is letter 't' that makes the sound /t/. Shows the key word and sound card for letter t. t, table, /t/ Student: Echoes t, table, /t/ Teacher: Says that these special words trigger the sound of each letter. Trace the letter t while making the sound /t/. This is how we write it. Student: <u>Echoes and traces the sound /t/.</u> Be very precise in tracing the letter, using the first and second fingers of your dominant hand**. Invite the student to take turns tracing the /t/ while saying the sound three times.
	Extension:	

*See card content in '**Appendix 3**'

**Note: do not hold the student's hand to show how to trace as this causes muscular tensions. If the student has trouble, show it multiple times.

P-2	Sound Introduction-Day 2	
	Materials:	Sandpaper lowercase manuscript letters Keyword cards for letters t,m,a*
	Aim:	To develop auditory, visual, and kinesthetic perception of letter sounds
	Presentation:	Discovery Teacher: Shows keyword and sound card for t to review. Student: Says t, table, /t/ Teacher: Today you will learn two new letter sounds. Take out your mirror. Look at your mouth in the mirror as you echo mitten, mop, monkey. What initial sound do you hear? Student: Echoes and says..... /m/ Teacher: Is the Airflow blocked by the tongue, teeth, or lips? Student: Says lips. Teacher: Shows the sandpaper letter m. This is letter m that makes the sound /m/. Shows the key word and sound card for letter m. m, monkey, /m/ Student: Echoes m, monkey, /m/ Teacher: Trace the letter m while making the sound /m/. This is how we write it. Student: <i>Echoes and traces the sound /m/</i>. Repeat the whole procedure for a. Before a new sound introduction, review all the sounds done so far. Some students may only be able to take one introduction a day.
	Extension:	

*See Card Content in 'Appendix 3'

P-3	Three Period Lesson	
	Materials:	Sandpaper lowercase manuscript letters Keyword cards for letters t,m,a*
	Aim:	To develop auditory, visual, and kinesthetic perception of letter sounds
	Presentation:	When t,m,a are already presented, do a review of the sounds with a three-period lesson. Teacher: Places the three letters t, m, a on the table. 1. Trace the letter /t/, /m/, /a/ as you say the sounds. Student: Traces /t/, /m/, /a/ while saying the sounds for each letter. Teacher: Asks student to point. 2. Point to /m/, /t/, /a/ as you echo the sound. Student: Point to /m/, /t/, /a/ while echoing the sounds. Teacher: Points to /a/, /t/, /m/ and asks: 3. What is this? Start with the last letter you asked him to point. <i>Tracing, showing, asking are three components of the three-period lesson. The Three-period lesson can be thought of as association, recognition, recall.</i>
	Extension:	

*See Card Content in 'Appendix 3'

P -4	Skywriting	
	Materials:	Sandpaper letters Keyword and sound cards for the letters done the day before*
	Aim:	To develop memory device to unlock the sounds Provides letter-sound connection Preparation for reading, writing
	Presentation:	Explain the **skywriting procedure to the student. Teacher: Lays the sandpaper letter t on the table and asks to trace t as you say t . Student: Traces the letter t while echoing the name t . Teacher: Shows the keyword card . Say the name, key word & sound as you skywrite. Student: Follows direction. Repeat the above procedures for m and a . (Practice and review this activity for two to three days until the student learns them. When the student is ready to move on, introduce new letters two or three at a time.)
	Extension:	

*See Card Content in '**Appendix 3**'

**** Skywriting** is a process that uses the whole body to learn to write the letters. It is done with the dominant hand. It involves the use of large muscles of the upper arm and shoulders. The movement of these muscles produces a strong neurological imprint of letter shapes (Waites & Cox, 1976).

The hand is stretched out, fully locked, in front of the student. Two of the fingers (pointer and middle fingers) are extended to write large letters in the air while saying the name of the letter. This develops strong muscle memory.

P-5	Foam Sticks in a Jar Game	
	Materials:	Foam Sticks with the letters written Objects (Optional)
	Aim:	To reinforce the beginning sounds To develop auditory and visual memory Preparation for reading
	Presentation:	Bring color coded foam sticks with the letters written on them. Only use the letters that have been presented. Teacher: Pick a stick and say the name, keyword, and the sound of the letter. Student: Picks t . Says the name, kw, sound. Teacher: Pick another letter. Student: Picks m . Says the name, kw, sound. This continues until there are no more sticks in the jar.
	Extension:	For an added variation the student will pick a stick, say the name, and give two more words, beginning with this sound. Do the above activity folding in more letters as the student is presented with newer letter sounds. Bring objects with these beginning sounds and ask to sort them out according to the foam stick that is picked.

P-6	The Phonogram Card Game	
	Materials:	Phonogram cards of the letters already presented*
	Aim:	Visual and auditory reinforcement of the beginning sounds Preparation for reading, writing
	Presentation:	Bring the cards of the letters presented to the table. Teacher: Holds up the card one at a time. Give me the name, keyword, and sound as you skywrite. Student: Looks at the card and says the name, keyword, and the sound of each letter as he skywrites. This continues until there are no more cards.
	Extension:	Place all the cards done so far, face down. Student will pick up one card at a time and say the name, keyword, and sound. Second extension is for the teacher to give the key word and sound and ask the student to guess the name of the letter. Another variation will be for the teacher to give the name and ask the student to respond with the keyword and sound.

*See Card content in '**Appendix 3**'

P-7	The Picture Game	
	Materials:	Pictures corresponding to the letter Sounds introduced* Phonogram cards**
	Aim:	Develop visual and auditory memory Refine auditory perception of simple words Preparation for reading, writing
	Presentation:	Bring the pictures and phonogram cards to the table. Teacher: Places the three cards t ,m ,a and the pictures face down on the table. Student: Picks a picture and says top, /t/ and places it under the letter t. This continues until there are no more pictures left. Do about 3different sounds. This lesson can also be done to identify the final sounds or middle sounds. Ask the student to sort them by ending or middle sounds. In the beginning, when working with (middle) vowels, choose only two different vowels at a time.
	Extension:	Use objects instead of pictures. It is very effective.

*Use pictures titled '**IS-7**'

See card contents in 'Appendix 3**'

P-8	Vowels or Consonants?	
	Materials:	Mirror
	Aim:	Concept of vowels and consonants Preparation for reading, writing
	Presentation:	Do this only with the sounds learned so far. Teacher: Say mirror up. Look at the mirror and say the sound /t/. Student: Echoes /t/ looking at the mouth in the mirror. Teacher: What part of the mouth is used to make the sound. Student: The tongue. Teacher: Yes, the air flow is blocked by the tongue. Teacher: Since it is blocked, /t/ is a blocked sound. If it is blocked, it is called a Consonant. Student: Echoes /t/ is a blocked sound. It is a Consonant. Repeat the procedure for vowel /a/. If it is not blocked, for e.g., /a/, then it is unblocked and is called a Vowel. Do this with all the letters that have been introduced.
	Extension:	Teacher gives sounds and asks student to guess if it is a consonant or a vowel. Place phonogram cards facing down. Student will pick a card and give name, keyword and sound and say if it is a consonant or vowel.

P-9	Digraphs	
	Materials:	Mirror
	Aim:	Concept of digraphs Preparation for reading, writing
	Presentation:	Teacher: Sometimes two letters come together to make one sound. These are called 'digraphs.' Teacher: Get your mirror up. Say the words, chair, chips, chat Student: Echoes the words while looking in mirror. Teacher: What is the sound you hear in the beginning in all these words? Student: /ch/ Teacher: c, h come together to make /ch/ /ch/ is called a digraph. /ch/ makes you smile by showing your teeth. Do similar introductions for the digraphs /ck/ , /th/ , /th/, /sh/ /sh/ makes the 'quiet' sound; /th/ makes you put your tongue out
	Extension:	Ask the student to come up with words with /ch/ in the initial position. Place phonogram cards facing down. Student will pick a card and give name, keyword, and sound.

4 Reading (R)

For reading, letters are presented to the students in the same order as in “Phonics”; the order is repeated below:

m	t	a	s	b	c	---	Red
n	l	i	r	f	p	---	Yellow
h	g	o	k	d		---	Green
j	x	e	v	z		---	Orange
w	u	qu	y			---	Blue
ch	ck	th	th	sh		---	Purple

R-1	Word Patterns – 1	
	Materials:	5 sets of lower-case plastic letters with extra purple vowels (m, t, a, s, b, c)
	Aim:	To learn forming words Preparation for reading, writing, spelling Vocabulary development
	Presentation:	T: Review body coda word blending for words with /a/ as the vowel- (see CS-4). When students begin to identify sounds in the red group (m, t, a, s, b, c) word building may be tried. If it is difficult at this time, wait until more sounds have been introduced. Use only the sounds in red dot group. Bring the letters - m,t,b,c,s and 5 vowels to the table. Teacher: We will make the word /cat/. Tell me the body coda for /cat/. Student: ca—t Teacher: Places 5 /a/ one below the other. Tell me the initial sound in /ca/. Student: /c/ Teacher: Places /c/ left of /a/. Runs hand from left to right, says, /ca/. Teacher: What is the coda in /cat/? Student: /t/ Teacher: Places /t/ in the final position. Reads the word /cat/ by running her hand under from left to right. Student: Echoes /cat/. Teacher: Builds sat, bat, tat keeping the final position /t/ constant. Repeat this next day and ask the student to build the words. Repeat this for several days. If this is difficult, build only the 'body' of
	Extension:	

R-2	Word Patterns – 2	
	Materials:	5 sets of lower-case plastic letters with extra purple vowels (m, t, a, s, b, c)
	Aim:	To learn forming words Preparation for reading, writing, spelling Vocabulary development
	Presentation:	When the student is successful with R-1 module, move on to R-2. Review body coda for words with /a/ in the medial position. Teacher: We will build more words today. Places /a/ one below the other on the table. E.g., tac, tam, tas, tab, tat Keep the initial sounds constant and change only the final sounds to make words. Teacher: Make /ta-/. Student: Places /t/ to the left of /a/ and runs the hand under and echoes /ta/. Teacher: Make /ta/ to /tab/. Student: Places /b/ in the final position and runs hand under left to right and reads /tab/. Let the student read from left to right after building the body and finish with coda and read again. This is repeated for several days and when they are ready, begin giving words with vowel /a/ constant and changing the initial and final //s. E.g., cam, tab, sat, bat, mat, cat, etc.
	Extension:	

R-3	Word Patterns-3	
	Materials:	5 sets of small plastic letters with extra vowels
	Aim:	To learn word building Preparation for reading, writing, spelling Vocabulary development
	Presentation:	When the second set of sounds is done, the next vowel /i/ can be introduced. Follow the same procedures as in R-1, R-2 modules. When the student can hear the initial, medial, and final sounds, keep only /i/ constant and change both initial and final sounds. Remember to use only the sounds that have been presented and learned so far. Teacher: Places 5 lower-case letters/i/ one below the other. The word is /fin/. Tell me the body and coda for /fin/. Student: /fi/ /n/. Teacher: What is the initial sound in 'fin'? Student: /f/; Places /f/ on the left of /i/. Teacher: What is the final sound? Student: /n/ Teacher: Runs hand from left to right, says, /fin/. Now give a turn to the student to do the same as above with sim, tin, fib, pit This is repeated for several days. When student is doing well, move on to the next vowels /o/, /e/ and /u/. Repeat the same procedures as above. By now, some students may start decoding. When they become very comfortable with this procedure, start giving words with
	Extension:	

R-4	Word Builders	
	Materials:	Objects with short vowels (cvc) words Pictures with short vowel (cvc) words* 5 sets of lower-case plastic letters with extra vowels Star card with three spaces**
	Aim:	Focus on word building Preparation for reading, writing, spelling Vocabulary development
	Presentation:	Start with objects with vowel /a/constant. Build the words on the star card. Teacher: Places pictures on the table. Teacher: Pointing to the object cat , asks, what is the body coda for /cat/? /ca/ /t/. Let us build /ca/ first. What is the initial sound of /ca/? Student: /c/ and will place the /c/. Teacher: What is the next sound in /ca/? Student: /a/ Teacher: What is the final sound ? Student: /t/ Teacher: Runs hand under from left to right and reads /cat/. Student: Will do the same. Continue with the other pictures. This exercise is repeated for several days with all the other vowels taking one vowel at a time. When the students hear the initial, final and the medial sounds, they are ready to move on to mixed vowel sounds.
	Extension:	The above can be done with pictures in 'CS-4' too.

*See pictures titled **'CS-4'**

****See card template titled 'IS-6'**

R-5	CVC Words	
	Materials:	List of two/three letter words* Star Card with three spaces**
	Aim:	Writing cvc words Auditory reinforcement Preparation for spelling, reading, writing
	Presentation:	Teacher: Today we are going to practice writing more words. I will dictate words and you will echo and pull down the sounds and read. The word is '<i>mad</i>' saying each sound distinctly, '<i>ma d</i>.' Student: Echoes <i>ma d</i> and pull down a letter for each sound from left to right. Student will read by running hands under from left to right. Teacher can use a pattern of words ending in the same sounds; or with same vowels and keeping the initial letter different in the beginning. This exercise should be repeated many times with CVC words. Do not use digraphs or blends at this time.
	Extension:	Use pictures/objects to do the above. Show a picture to the students and ask them to name it. Now ask them to pull down a letter for each sound they hear in the name.

*See examples on next page '**R-5**'

See card template titled 'IS-6**'

List of words (R-5)

Cat bin bud mop ben

Bat tin mud top ten

Sat fin cud lop den

Mat din dud hop ken

Fat pin sud pop hen

Can pig but god bet

Cab pit bun got ben

Cat pin bug gon beg

Dan rip sun fog den

Mad lit mud bod pet

R-6	Secret Word Game	
	Materials:	List of two/three letter words and some words 'POP' printed on small cards
	Aim:	Reading cvc words Visual reinforcement Preparation for spelling, reading
	Presentation:	This game must be played when the student has done some of the Reading Exercises that are done below. This is a good review. Teacher: Places the printed cards in a bag or a box. Student: Puts his hand in and picks one card at a time and reads. He gets one point for every correct word read. After reading he places the cards outside the bag. If he get the card with 'POP' then he places all the cards that he won back in the bag. If he doesn't read it correctly, he puts the cards back in the bag. Teacher: Takes a turn to pick and read and follows the same rule. The game is done when everything has been read.
	Extension:	

R-7	Building Syllable game	
	Materials:	Lower case consonant letters (red) with vowels (either red or purple)
	Aim:	Building syllable one sound at a time by adding, changing, substituting, reversing, and deleting Reading cvc words Visual reinforcement Preparation for spelling, reading
	Presentation:	This game must be played when the student has done some of the Reading Exercises. Teacher will begin with one consonant and make only one sound change at a time. This exercise should always begin and end with a consonant. Teacher: Show me /m/ Student: <u>Echoes and pulls down /m/ and will say /m/as he runs his fingers under.</u> Teacher: Now change /m/ to /am/. Student: <u>Echoes /am/ and pulls down /a/ and places it to the left of /m/ and runs his fingers from left to right and echoes /am/.</u> Teacher: Now change /am/ to /pam/ Student: <u>Echoes /pam/ and pulls down /p/ and runs his fingers left to right and echoes /pam/.</u> Teacher: Now change /pam/ to /map/. Student: <u>Echoes and switches and echoes /map/.</u> Teacher: Now change /map/ to /ap/. Student: <u>Echoes /ap/ and changes to /ap/ and runs fingers from left to right while echoing.</u> Teacher: Now show me /p/. Student: <u>Echoes /p/ and takes away /a/</u>
	Extension:	Do this exercise with several combinations.

R-8	Vowel Switch	
	Materials:	Lower case consonant letters (red) with vowels (either red or purple)
	Aim:	Auditory discrimination of vowel sounds Reading cvc words Vowel reinforcement Preparation for spelling, reading
	Presentation:	This game must be played when the students have done some of the Reading Exercises. Teacher: Make the word /tap/. Student: Echoes and makes the word /tap/. Teacher: Now switch /tap/ to /tip/. Student: Echoes and switches /tap/ to /tip/. Teacher: Now switch /tip/ to /top/. Student: Echoes /top/ and switches /tip/ to /top/. Teacher: Switch /top/ to /tup/. Student: Echoes /tup/ and switches /top/ to /tup/. Teacher: Switch /tup/ to /tep/. Student: Echoes /tep/ and switches /tup/ to /tep/. Review with several words.
	Extension:	

4.1 Reading Exercises (RE)

The following Learning modules provide an array of words, nonsense words, multisyllabic words, phrases, sentences for students to read. Each reading page has base words, nonsense words, phrases, and sentences. Sight words have also been added to this group. Some common rules have been identified. These words provide vocabulary, comprehension, and fluency.

When students read the words, and sentences fluently, introduce them to the set of books called “Mac and Tab” Series 1, 1A by EPS¹ or similar sets of your choice. They are written with ‘cvc’ and ‘vc’ words and with short stories that the children enjoy reading. There are 2 sets with 10 books in each set. This provides sufficient practice with vocabulary, comprehension, and fluency.

A fat gull was on a hut.

Meg has gum in the bus.

The pug pup sat in a pit.

Bud has a rug in his hut.

Will had to lug his pup.

2 Syllable Words

vix/en ban/yan tid/bit rab/bit

** **Rule:** The letter 'c' comes before letter 'u'
'c' comes before 'a', 'o', 'u'*

RE-9a

Review: ch, ck, th, th, sh

ch

chat	chap	chip	chill
chit	chug	chop	chin
chum	Chan	chub	chess
lunch	bench	inch	punch

Phrases & Sentences

chop a log

Will had to chop a log.

in a box

Can a chip fit in a box?

a chestnut

A bug sat on a chestnut.

had fish

I had fish for lunch.

lots of cash

Bob has lots of cash.

in a ship

That ship had shells.

a thin lad

A thin lad went to the
shop.

RE-9b (Continued)

thick ham A moth sat on the thick ham.

in the path This lass sat in the path.

a red lock He had a big red lock.

to them The man ran to them.

that rack That rack had a lot of wigs.

2 Syllable Words

Chest/nut bath/tub cat/fish

5 Handwriting (HW)

Depending on the school district, either print or cursive are taught in various schools. To maintain consistency, whichever method is chosen, it is imperative that the sandpaper letters reflect the choice of the school. Sandpaper letters help to gain muscular memory of the shape of the letters. Using sand trays to practice will ignite multiple learning pathways in the brain.

The letters in the handwriting Learning modules have been grouped by the ease of production and similarity of the strokes. The sequence of movements for each letter is given. The teacher should be consistent with giving the directions for each letter. This aids the student's recall of the letters. The student names the letter while writing. This provides kinesthetic reinforcement.

Teacher can set goals for the student and with practice, the student will be able to achieve legibility and good handwriting skills.

Lessons that follow have been grouped as follows:

- Sub-section A: PRINT
- Sub-section B: CURSIVE

Sub-section A: Print

HW-1	Fine Motor Skills	
	Materials:	Scissors Push pins Carpet squares Newspaper strips
	Aim:	Work on the fine motor skills Eye-hand coordination Develop the hand muscles Indirect preparation for writing
	Presentation:	<i>Notes to the Teacher</i> Make small tears of the newspaper strips using the thumb, index, and middle fingers. This helps with the development of fine motor skills. Use scissors for cutting strips of paper. Once he can hold the scissors correctly and cut, move on to cutting lines. Start with straight lines to zigzag lines to spirals. Draw some simple shapes on a 5" 5" paper. Ask student to pin punch the shape. The student holds the push pin, and punches along the outline of the given shape. Touching thumb to each finger exercise can be done every day. This exercise helps the student to refine fine motor skills.
	Extension:	Introduce other shapes

HW-2	Different Shapes	
	Materials:	Pipe cleaners in the following shapes Horizontal, vertical Up-down, full circle, half circle Diagonal, crisscross Song sheet*
	Aim:	To introduce the different shapes found in different letters Indirect preparation to reading and writing
	Presentation:	This is a very important prerequisite to handwriting. Teacher: Holds up Horizontal shaped pipe cleaner. Asks student to hold up his horizontal shape. Say Horizontal. Teacher continues with 2-3 shapes each day. Review the shapes before giving names of the new shapes. This is ' Horizontal ' This is ' Up-down ' This is ' Diagonal ' This is ' Criss-Cross ' (with 2 diagonals) This is ' Half circle ' This is ' Full Circle ' This is ' Camel hump ' These are the strokes and curves used to make all the manuscript letters. Do a 3-period lesson with these strokes. Practice this for a few days. Use the song sheet* to sing the different shapes. Kids learn quickly through songs.
	Extension:	Can be practiced with 'wikki stix'. The student can make the different shapes. The student can be encouraged to make these shapes with own body for variation.

* See example on next page 'HW-2'

Handwriting Shape Song (HW-2)

(Sung to the tune of Frere Jacques)

Horizontal, Horizontal

Up-down, Up-down

Diagonal, Diagonal

Criss-cross; Criss-cross

Full circle, Full circle

Half circle, Half circle

Camel hump; camel hump

Helps to learn

The shapes of all letters

HW-3	Gross Motor Activities	
	Materials:	Chalk board /Dry erase board Large newsprint paper Chalk/crayons/paints/markers
	Aim:	Work on the gross motor skills Feel the movement in the shoulder and arm and thus improve the kinesthetic memory
	Presentation:	<i>Notes to the Teacher</i> Practice one stroke per day. Each stroke is practiced for a few days before moving on to the next stroke. Repeat this process multiple times. Using large whole arm movements help improve kinesthetic memory. Teacher shows how to make: 1. Up and down strokes 2. Down and up strokes 3. Circle strokes 4. Half circle strokes 5. Diagonal strokes 6. Hump strokes These strokes can be practiced by using : 1. Large strokes in the air using straight arms 2. Long strokes on the chalk board/ Dry erase board 3. Wet sponge on chalk board 4. With finger paints 5. Large unlined paper with crayons 6. Wide lined paper
	Extension:	Sand tray can be used Tray with shaving cream is another option Paper with different texture can be used

HW-4	Drawing geometric shapes	
	Materials:	Geometric shape stencils
	Aim:	Aids in control of pencil Muscular movements to form letters Work on the fine motor skills Eye-hand coordination Vocabulary development
	Presentation:	Have simple geometric shape stencils. Begin with the simplest shape like a triangle or circle. Teacher: Names the shape while pointing to a shape e.g., Circle. Student: Echoes the name of the shape- Circle. Teacher: Trace the shape with your hand three times. Student: Traces the shape with hand three times. Teacher: Echo the name and trace the circle with a crayon three times. Student: Echoes and traces three times. Teacher: Colors the circle with up and down strokes and asks the student to follow the same procedure. Student will repeat this lesson with many different shapes.
	Extension:	Introduce other shapes Superimpose 2-3 different shapes and color Show gradation of color

HW-5	Good Posture & Correct Pencil Grip	
	Materials:	Chair with flat back Paper Pencil
	Aim:	To teach good posture which is very important for good handwriting
	Presentation:	Teacher demonstrates these and reviews. <u>The 5 checkpoints for handwriting.</u> 1. Sit with seat pushed back in the chair and back straight and leaning forward. 2. Feet should rest flat on the floor. 3. Paper should be placed at 45-degree angle. A trick is to turn under the bottom corner of the paper and to keep the resulting edge parallel to the edge of the table. 4. The non-dominant hand acts as the anchor hand and is used to hold the paper in place. 5. Pencil should be held so that it points by the shoulder. A proper pencil grip is very important. 5a. To do this, teacher says: Place: Student places the pencil on the desk with the point towards them. Pinch: Student grasps the pencil with the index finger and thumb in a 'pinch' position where the paint begins. Lift: Lift the pencil as it falls in the correct position and rests on the first joint of the middle finger. Maintain constant pressure when holding the pencil. Practice this several times a day.
	Extension:	

HW-6	Lines on Paper	
	Materials:	Lined paper and pencil Chalk/dry erase board with lines
	Aim:	To teach the three lines on the lined paper
	Presentation:	Teacher introduces the three lines on paper with a three-period lesson. First period: Teacher introduces the terminologies. 'Top Line': Echo and trace the top line with the index finger from left to right to the end of the line. The middle line is called, 'Mid Line': Echo and trace from left to right to the end of the line. The bottom line is called, 'Base Line': Echo and trace from left to right to the end of the line. Second period: Teacher says, 'show me' the top line, the midline and the base lines. Third period: Teacher points to the base, mid, top lines and asks the student, 'what is this?' This must be reinforced every day before the start of handwriting practice.
	Extension:	The above can be done on a board with dry erase markers or 'Wikki Stix'.

HW-7	Tall, Short, Under Letters	
	Materials:	Lined paper and pencil Chalk/dry erase board with lines
	Aim:	To teach the different sizes of letters
	Presentation:	Teacher: Places a lined paper in front of the student. There are different sizes of letters. Tall , Short, and Down letters. Teacher: Touch the top line and echo <i>tall</i> letter and show the motion <u>thumbs up</u>. Student: Touches the <i>top line</i> & echoes Tall letter and shows thumbs up. Teacher: Touch the mid line and echo <i>Short</i> letter and show <u>closed fist</u>. S: touches the <i>midline</i> & echoes Short letter showing closed fist. Teacher: Touch the mid line and go down below the baseline and echo Down letter and show the motion <u>thumbs down</u>. Student: goes from <i>mid line</i> to <i>below the base line</i> and echoes Down letter and shows thumbs down. Do a 3-Period Lesson.
	Extension:	

HW-8	Drawing the Strokes	
	Materials:	Wide lined paper and pencil
	Aim:	To teach the different lines for writing on the lined paper
	Presentation:	After several practices with chalk board, unlined paper student is ready to start with wide lined paper practice. Each stroke must be introduced one day at a time. Before introducing the next stroke, review the previous stroke. If the student is ready, introduce the next stroke. Teacher: Lower case print letters start from the top. Today you will learn the short horizontal stroke. Skywrite and echo horizontal, going from left to right. Write with your pencil while echoing the name. Student: Echoes horizontal and skywrites from left to right on the mid line. Echoes and writes with the pencil. 1. Short horizontal stroke on midline Follow the strokes below each day and review before introducing a new stroke. 2. Tall up-down (vertical) stroke from topline to baseline. 3. Short up-down (vertical) stroke from midline to baseline. 4. Down letters from midline to below the baseline. 5. Half circles on the midline. 6. Full circles on the midline. 7. Camel humps on the midline. This lesson will go on for several days before the writing of letters.
	Extension:	

--	--	--

HW-9	Letter Forms and Groups	
	Materials:	Wide-lined paper Pencil *Stroke description paper
	Aim:	Teach the letters grouped by similar strokes
	Presentation:	<i>Notes to the Teacher</i> The letters are grouped from the simplest to write to more complex. This is a sample group. You may follow whichever suits you. l, t, i h, m, n, u, y b, p, o, s a, c, d, e, g, q r, f, j v, w, x, k, z While giving the mantra for each letter, follow the stroke terminologies taught earlier. Student should repeat as they write. Remind the student that these lower-case letters will start at the top. For example: letter 'b' - 'down, up, and around'; letter 'm' - 'down, camel hump one, camel hump two.' Teacher: Traces a letter first with the mantra on paper. Student: Echoes and Traces the letter three times and makes a copy next to it. Now he will make copy from memory TCM-(Trace, copy, memory). Student only writes the same letter about 5 times and moves on to the next.
	Extension:	For review, skywrite and then write on paper. Repeat as many times as needed.

* See description on next page '**HW-9**'

Handwriting Stroke Description (HW-9)

<u>Name</u>	<u>description</u>	<u>tall/short/down letters</u>
a	half-circle, up, down	*short
b	down, up, & around	*tall
c	half-circle	short
d	half-circle, up to top, down	tall
e	horizontal, half-circle around	short
f	hook, down & cross	tall
g	half-circle, up, down below, hook	*down
h	down, camel hump	tall
i	down, dot	short
j	down below, hook left, dot	down
k	down, diagonal in, diagonal out	tall
l	down	tall
m	down, camel hump 1, camel hump 2	short
n	down, camel hump 1	short

***Tall:** goes from the top line to base line – **Thumbs up**

***Short:** goes from mid-line to base line – **Closed fist**

***Down:** starts from mid-line and goes under the base line – **Thumbs down**

<u>Name</u>	<u>description</u>	<u>tall/short/under letters</u>
-------------	--------------------	---------------------------------

o	full circle	short
p	down, up, & around	down
q	half-circle, up, down below	down
r	down, up, hook right	short
s	hook, diagonal, hook	short
t	down, cross	tall
u	down, curve up, down	short
v	diagonal down, diagonal up	short
w	diagonals - down, up, down, up	short
x	crisscross	short
y	diagonal down, diag. up, down below	down
z	horizontal, diagonal, horizontal	short

*Tall: goes from the top line to base line – Thumbs up

*Short: goes from mid-line to base line – Closed fist

*Down: starts from mid-line and goes under the base line – Thumbs down

HW-10	Practice, Practice, Practice	
	Materials:	Wide-lined paper, pencil
	Aim:	To practice all the Lower Case and Upper-Case letters Preparation for writing
	Presentation:	<i>Notes to the Teacher</i> Give the student a journal. Give a sample of upper and lower-case letters. In the beginning, student must write lower case letters only following the lines in the journal. After mastery of the lower-case letters, move on to the upper-case letters. After mastery of the upper-case letters, write upper and lower-case letters together. This can go on until they are ready to do spelling words and sentences.
	Extension:	

Subsection B : Cursive

Why cursive?

Cursive letters eliminate the need to decide where to begin to write each letter and in which direction you must proceed. It also provides directional left-to-right energy and emphasis on spatial letter sequence. Cursive reduces the inclination to reverse direction by eliminating the need to raise the writing instrument between letters in a word. It provides unique letter shapes which are NOT mirror images of other letters. Finally, cursive writing helps to promote flowing, rhythmical movements which the student can execute more easily than the short, stilted lines and arcs of manuscript printing.

HW-1	Pre-writing skills	
	Materials:	Scissors Push pins Carpet squares Newspaper strips
	Aim:	Work on the fine motor skills Eye-hand coordination Develop the hand muscles Indirect preparation for writing
	Presentation:	<i>Notes to the Teacher</i> Make small tears of the newspaper strips using the thumb, index, and middle fingers. This helps with the development of fine motor skills. Use scissors for cutting strips of paper. Once he can hold the scissors correctly and cut, move on to cutting lines. Start with straight lines to zigzag lines to spirals. Draw some simple shapes on a 5" 5" paper. Ask student to pin punch the shape. The student holds the push pin, and punches along the outline of the given shape. Touching thumb to each finger exercise can be done every day. This exercise helps the student to refine fine motor skills.
	Extension:	Introduce other shapes.

HW-2	Different Strokes	
	Materials:	Pipe cleaners in the shape of long swing up, short swing up, push up over Strokes song*
	Aim:	To introduce the different strokes involved in the cursive letters Preparation for writing
	Presentation:	This is a very important prerequisite to handwriting. Make the different strokes with pipe cleaners. Teacher: Hold up your long swing up shape. Echo long swing up. Student: Holds and echoes long swing up. Teacher: Does a 3-Period lesson with each new stroke. Teacher continues with one shape each day. Review the shapes before giving names of the new shapes. Short swing up and Push up over strokes are given separately as each one is mastered. Do a 3-Period lesson with each of these strokes. These are the strokes used to make the all the cursive letters. Practice this for a few days in different ways. Use 'twinkle-twinkle little star' nursery rhyme to sing the different shapes. Kids learn quickly through songs. See this song on the next page.
	Extension:	Can be practiced with 'Wikki Stix'. The student can make own shapes.

*Stroke song on the next page 'HW-2'

Strokes Song: (HW-2)

(Sung to the tune of 'twinkle twinkle little star')

Long swing up, and short swing up

Push up over are all the strokes

These are all the strokes you learn

When you learn to write cursive

Long swing up, and short swing up

Push up over are all the strokes

(Make appropriate hand movements for the strokes.)

HW-3	Gross Motor Activities	
	Materials:	Chalk board Dry erase board Large newsprint paper Chalk/crayons/paints
	Aim:	Work on the gross motor skills Feel the movement in the shoulder and arm and thus improve the kinesthetic memory
	Presentation:	<i>Notes to the Teacher</i> Practice one stroke per day. Each stroke is practiced for a few days before moving on to the next stroke. Repeat this process multiple times. Use whole arm . These large full arm movements help improve the kinesthetic memory. Teacher shows the following strokes: 1. Windshield wiper strokes 2. Continuous push up over strokes 3. Continuous long swing up strokes 4. Continuous over and under strokes 5. Continuous under and over strokes These strokes can be practiced by using : 1. Large strokes in the air using straight arms 2. Long strokes on the chalk board/ Dry erase board 3. Wet sponge on chalk board 4. With finger paints 5. Large unlined paper with crayons 6. Wide lined paper with pencils
	Extension:	Sand tray can be used Tray with shaving cream is another option Paper with different texture can be used

HW-4	Drawing geometric shapes	
	Materials:	Geometric shape stencils
	Aim:	Aids in control of pencil Muscular movements to form letters Work on the fine motor skills Eye-hand coordination Vocabulary development
	Presentation:	Have simple geometric shape stencils. Begin with the simplest shape like a triangle or circle. Teacher: Names the shape while pointing to a shape e.g., Circle. Student: Echoes the name of the shape- Circle. Teacher: Trace the shape with your hand three times. Student: Traces the shape with hand three times. Teacher: Echo the name and trace the circle with a crayon three times. Student: Echoes and traces three times. Teacher: Colors the circle with up and down strokes and asks the student to follow the same procedure. Student will repeat this lesson with many different shapes.
	Extension:	Introduce other shapes Superimpose 2-3 different shapes and color Show gradation of color

HW-5	Good Posture & Correct Pencil Grip	
	Materials:	Chair with flat back Paper Pencil
	Aim:	To teach good posture which is very important for good handwriting
	Presentation:	Teacher demonstrates these and reviews. <u>The 5 checkpoints for handwriting.</u> 1. Sit with seat pushed back in the chair and back straight and leaning forward. 2. Feet should rest flat on the floor. 3. Paper should be placed at 45-degree angle. A trick is to turn under the bottom corner of the paper and to keep the resulting edge parallel to the edge of the table. 4. The non-dominant hand acts as the anchor hand and is used to hold the paper in place. 5. Pencil should be held so that it points by the shoulder. A proper pencil grip is very important. 5a. To do this, teacher says: Place: Student places the pencil on the desk with the point towards them. Pinch: Student grasps the pencil with the index finger and thumb in a 'pinch' position where the paint begins. Lift: Lift the pencil as it falls in the correct position and rests on the first joint of the middle finger. Maintain constant pressure when holding the pencil. Practice this several times a day.
	Extension:	

HW-6	Lines on Paper	
	Materials:	Lined paper and pencil Chalk/dry erase board with lines
	Aim:	To teach the three lines on the lined paper
	Presentation:	Teacher introduces the three lines on paper with a three-period lesson. First period: Teacher introduces the terminologies. 'Top Line': Echo and trace the top line with the index finger from left to right to the end of the line. The middle line is called, 'Mid Line': Echo and trace from left to right to the end of the line. The bottom line is called, 'Base Line': Echo and trace from left to right to the end of the line. Second period: Teacher says, 'show me' the top line, the midline and the base lines. Third period: Teacher points to the base, mid, top lines and asks the student, 'what is this?' This must be reinforced every day before the start of handwriting practice.
	Extension:	The above can be done on a board with dry erase markers or 'Wikki Stix'.

HW-7	Tall, Short, Down Letters	
	Materials:	Chalk board/Dry erase board Wide lined paper Pencil, chalk or dry erase markers
	Aim:	To teach the different sizes of letters
	Presentation:	Teacher: Draws an arrow on the baseline to indicate where each stroke will start. Lower case cursive always starts from the baseline. There are three different sizes of letters. <i>Tall , Short, and Down letters.</i> <i>Tall letters start at the baseline and touch the top.</i> Motion - <u>Thumbs up</u> <i>Short letters start at the baseline and touch the midline.</i> They are: Short swing up or Push up over letters. Motion - <u>Closed fist.</u> <i>Down letters will start at the baseline.</i> They may be Short swing up or Push up over letters starting at the baseline to midline and go down below the baseline. Motion - <u>Thumbs down.</u> Do a 3-Period Lesson.
	Extension:	Lots of practice is required for each letter.

HW-8	Practicing the Strokes	
	Materials:	Chalk board/Dry erase board Wide lined paper Pencil, markers, chalk
	Aim:	To teach the different strokes for writing on the lined paper
	Presentation:	Teacher: Draws an arrow on the baseline to indicate where each stroke will start. Lower case cursive always starts from the baseline. Today you will practice the strokes for all the tall letters. Says long swing up stroke and draws from the baseline to the topline. Student: Echoes and draws long swing up strokes on the dry erase board with lines. Teacher: Says short swing up stroke and draws from the baseline to the midline. Student: Echoes and draws short swing up strokes. Teacher: Says push up over stroke and draws from baseline to midline. Student: Echoes and draws push up over strokes. These strokes must be learned one stroke per day and practiced for a few days before introducing the new strokes. When student know the names of strokes and can write the strokes well, move on to lined paper and writing letters.
	Extension:	

HW-9	Letter Forms and Groups	
	Materials:	Wide-lined paper, pencil
	Aim:	To teach the letters grouped by similar strokes
	Presentation:	Group the letters by strokes. Long swing up strokes: b, f, h, k, l, t Push up over strokes: a, c, d, g, m, n, q, o, v, x, y, z Short swing up strokes: e, i, j, p, r, s, u, w While giving the mantra for each letter, follow the (long swing up; short swing up; push up over) terminologies taught earlier. Student should repeat the verbiage while writing. Remind the student that the lower-case cursive letters start at the base line. For example: Letter 'b' is long swing up, make a loop to the left, come straight down to the base line, curve up to the midline and swing out. Letter 'm' is push up over and down; repeat two more humps and swing out. Ideally only two or three letters from the same stroke should be introduced. Review these the next day by skywriting and then on paper and introduce two or three more.
	Extension:	Repeat as many times as needed.

Handwriting Stroke Description (HW-9)

Name _____ description _____ tall/short/down letters

- | | | |
|---|---|-------|
| a | push up over to the **2 o'clock dot, stop, come around and close, come straight down and swing out | short |
| b | long swing up, make a loop to the left, come straight down, curve up to the mid-line and swing out | *tall |
| c | push up over to the 2 o'clock dot, stop, come around, swing out | short |
| d | push up over to the 2 o'clock dot, stop, come around, go up to the top line, come down, swing out | tall |
| e | short swing up, loop to left, come down, swing out | short |
| f | long swing up, loop to the left, come down below the baseline, loop to right, swing out | tall |
| g | push up over to the 2 o'clock dot, stop, come around and close, come straight down below the baseline, loop to left and swing out | *down |
| h | long swing up, loop to the left, come down to base line, stop, make a hump, swing out | tall |

**2 o'clock dot refers to the location of 2 o'clock hour on a circular clock.

*Tall: goes from the base line to top line.

*Short: goes from base line to mid-line.

*Down: starts from base line to mid-line and goes under the base line.

Name	description	tall/short/under letters
i	short swing up to mid-line, come straight down swing out	short
j	short swing up to mid-line, come straight down below the base line, loop to left, swing out	down
k	long swing up, loop to the left, come down to base line, stop, back up to midline, circle around, kick in, kick out	tall
l	long swing up, loop to the left, come down to base line, stop, swing out	tall
m	push up over to the mid-line, come down, make two more humps, swing out	short
n	push up over to the mid-line, come down, make one more humps, swing out	short
o	push up over to the mid-line to the 2 o'clock dot, come around, close and swing out	short
p	short swing up, come straight down below the base line, come back up, circle around, swing out	down
q	push up over to the 2 o'clock dot, stop, come around and close, come straight down below the baseline, loop to right and swing out	down

*Tall: goes from the base line to top line.

*Short: goes from base line to mid-line.

*Down: starts from base line to mid-line and goes under the base line.

Name	description	tall/short/under letters
------	-------------	--------------------------

r	short swing up to mid-line just above the mid-line, draw a horizontal line, come down to base line, swing out	short
s	short swing up to mid-line, come straight down to base line, curve up to close, swing out	short
t	long swing up to top line, come straight down to the base line, stop, swing out, cross	tall
u	short swing up to mid-line, come straight down to base line, curve up to the mid-line, come down to base line, swing out	short
v	push up over to mid-line, come down in a slant to base line, go up to the mid-line, swing out	short
w	short swing up to mid-line, come straight down to base line, curve up to mid-line, come down to base line, curve up to mid-line, swing out	short
x	push up over to mid-line, slant and come down to base line, swing out, cross	short
y	push up over to mid-line, come straight down to base line, curve up to mid-line, come straight down below base line, loop to left, swing out	down
z	push up over to mid-line, come down to base line, go up slightly above the mid-line, pull down to base line, loop to the left, swing out	short

*Tall: goes from the base line to top line.

*Short: goes from base line to mid-line.

*Down: starts from base line to mid-line and goes under the base line.

HW-10	Practice, Practice, Practice
--------------	-------------------------------------

	Materials:	Wide-lined paper Pencil
	Aim:	To practice all the Lower Case and Upper-Case letters Preparation for writing
	Presentation:	<i>Notes to the Teacher:</i> Give each student sample copies of upper and lower-case letters. In the beginning, student must write lower case letters only following the lines in the journal. After mastering the lower-case letters, move on to the upper-case letters. After mastering the upper-case letters, write upper and lower-case letters together. This can go on until he is ready to do spelling words and sentences.
	Extension:	

6 Spelling (S)

Spelling moves from sounds to letters. Learning to spell enhances the student's reading and writing. The sound to letter recognition is a key component of spelling.

The Learning modules in this section address the following:

The different spelling procedures are:

1. Listen to the sounds
2. Finger Tapping
3. Sound out
4. Procedures to write phrases and sentences
5. Procedures to write multisyllabic words

Please note that all the words used for spelling are ***Closed syllables***. When a vowel is followed by one or more consonants, it makes a Closed syllable. For example: **cat, pig, bland, jump**

S-1	Listen to the Sounds	
	Materials:	Paper Pencil
	Aim:	Auditory reinforcements Preparation for writing words, phrases and sentences on paper
	Presentation:	After about 4-5 sounds have been introduced the teacher can start giving two letter words to become familiar with the procedures. Teacher: Watch my mouth as I say the sound and echo the sound as you write. Say /a/. Student: Echoes and writes /a/ while sounding the letter. (Student must have eye contact with the teacher when the sound is dictated.) Student: Looks up at the teacher and waits for the next sound. Teacher: Dictates /t/ Student: Echoes and writes /t/ while sounding the letter. Teacher: Read the word that is written. Student: Reads the word /at/. Reading what is written is critical for student to develop as it leads to accurate proof-reading habits. Correcting errors by proof-reading should be encouraged. Give words using only the sounds that have been covered so far.
	Extension:	None

S-2	Finger Tapping	
	Materials:	Paper Pencil
	Aim:	Kinesthetic reinforcement of spelling words Preparation for spelling sentences and stories Sound spelling (VC and CVC)words on paper
	Presentation:	Teacher: Look at my mouth and echo the word /am/ Student: Echoes /am/ Teacher: Using the non-dominant hand, tap each sound using the fingertips on the table starting with the pinky. Student: taps /a/ with pinky and /m/ with ringer while saying the sounds. Teacher: Say the word. Student: /am/ Teacher: Now sound as you write the word. Student: /a/ /m/ Teacher: Read the word that is written. Student: /am/ If the student is left-handed, use the right hand for tapping starting from the thumb. This is a very kinesthetic reinforcement of spelling. Reading what is written is critical for student to develop as it leads to accurate proof-reading habits. Correcting errors by proof-reading should be encouraged.
	Extension:	None

S-3	Sound Out	
	Materials:	Paper Pencil
	Aim:	Auditory reinforcement Preparation for writing sentences and stories Sound spelling (VC and CVC) words on paper
	Presentation:	The final goal for each student is to master this procedure and use it for all writing. Teacher: Look at my mouth and echo the word /am/ Student: Echoes /am/ Teacher: Now sound out as you write the word /am/. Student: /a/ /m/ Teacher: Read the word that is written. Student: /am/ Reading what is written is critical for student to develop as it leads to accurate proof-reading habits. Correcting errors by proof-reading should be encouraged.
	Extension:	None

S-4a	What are Phrases and Sentences?	
	Materials:	Paper Pencil
	Aim:	Understanding of phrases, sentences Preparation for reading and writing
	Presentation:	<u>Phrases</u> are two or more words that do not contain the subject-predicate to communicate a complete thought. A Phrase is incomplete on its own. A phrase can be short or long. <i>An example: on the bed</i> A Phrase does not begin with a capital letter or end in punctuation. <u>Sentences</u> are a group of words that are put together to mean something. It expresses a complete thought. (Taken from Wikipedia) A Sentence always begins with a capital letter and ends in punctuation depending upon the sentence. <i>An example: A cat sat on the bed.</i>
	Extension:	None

S-4b	Writing Phrases and Sentences	
	Materials:	Paper Pencil Small cubes representing words
	Aim:	Auditory, visual, and kinesthetic reinforcements Sound spell phrases and sentences
	Presentation:	There are various ways to do this exercise. One way is to use small cubes for each word. Student can tap on the desk with their hands. Teacher: Look at my mouth and echo the phrase - <i>on a pig</i> Student: Echoes - <i>on a pig</i> Teacher: Place small cubes for each word as you echo the phrase again – <i>on a pig</i> Student: Echoes and places cubes for each word. Teacher: Says the phrase 2-3 times. Student: Echoes the phrase 2-3 times. Teacher: Point to each cube, echo the word, sound spell as you write. Student: Points to each cube, echoes, sound spells and writes - <i>on a pig</i>. Teacher: Read what you have written. Student: Reads the whole phrase. For spacers, use one finger space or a popsicle stick. The same procedure is also applied to writing sentences. The only difference will be to start with a capital letter and end in punctuation.
	Extension:	None

S-5	Multi Syllables	
	Materials:	Paper and pencil Rectangular foams representing syllables
	Aim:	Auditory reinforcement for spelling two or more syllables on paper
	Presentation:	This procedure can be done with foams or head bobbing or using arms or hands. Teacher: Says the word /catnip/ slowly but naturally. Student: Echoes the syllable /catnip/. Teacher: How many syll. are in /catnip/? Student: Two syllables Teacher: Place one felt for each syllable – <i>cat / nip</i> Student: Places the two rectangular foams for each syllable while saying the syllable – <i>cat / nip</i> Teacher: Point to the first syllable and say the syllable and write it as you sound spell. Student: Points to the left most foam and says /cat/ and writes while sounding it out. If both syllables can be spelled, follow similar procedure as above for the second syllable. Student: After both the syllables are written, student reads the whole syllable, <i>cat/nip</i>.
	Extension:	None

6.1 Spelling Exercises (SE)

Learning modules in this section help students to practice spelling of words and sentences. The procedures described in Section 6 are used in these modules.

Note: Before sounds are presented in the spelling exercises in these learning modules, students must have completed the reading and handwriting phases of the sounds.

SE - 1

Presented sounds: m, t, a

Listen to the Sounds: am, at

Finger Tapping: mat, tat

Sound Out:

Phrases:

Sentences:

2 Syllable Words:

SE - 2

Presented sounds: m, t, a, s, b, c

Listen to the Sounds: **am, bat, sat**

Finger-tapping: **at, ab, cab, cas, mat, sat**

Sound Out: **tab, Sam**

Phrases: **at a cab**

Sentences: **A cat sat.**

2 Syllable Words:

****Rule: When 'a' or 'A' stands alone, say /u/.***

****A sentence begins with a capital letter, ends in a punctuation (. ? !)
and is a complete thought.***

SE - 3

Presented sounds: m, t, a, s, b, c, **n, l, i**

Listen to the Sounds: **nit, bin, can**

Finger Tapping: **in, it, tin, tin, mat, bit, man**

Sound Out: **nil, nit, lit, cab, sit, bib**

Phrases: **cat in a tin, in a bit**

Sentences: **A cat can sit in a bin.
Sam can sit.**

2 Syllable Words: **sat/in; lac/tic; lat/in**

Rule:** *The letter 'c' comes before the letter 'a' - **'c' before 'a'

SE - 4

Presented sounds: m, t, a, s, b, c, n, l, i, **r, f, p**

Listen to the Sounds: **an, am, can**

Finger Tapping: **if, fat, rap, sip, lap**

Sound Out: **pal, fib, pan, sap, cab, lap**

Phrases: **sap in a cab, nap in a lap**

Sentences: **Is Tim in a cab?**
 A rat bit a cat!

2 Syllable Words: **cat/nip; cat/nap; fab/ric; rab/bit**

**** Rule: Capitalize a person's name.***

SE - 5

Presented sounds: m, t, a, s, b, c, n, l, i, r, f, p, **h, g, o**

Listen to the Sounds: **in, fog, ham**

Finger Tapping: **on, jog, pit, pot, hat, big**

Sound Out: **got, cop, bag, tap, ran, log**

Phrases: **in the fog, a bit of ham**

Sentences: **Mom can jog in the fog.
Rob had a big fat bit of ham.**

2 Syllable Words: **man/tis; hag/gis; pic/nic; cos/mic**

Sight Words: **of, the**

** **Rule:** The letter 'c' comes before the letter 'o' - 'c' before 'a' and 'o'*

SE - 6

Presented sounds: m, t, a, s, b, c, n, l, i, r, f, p, h, g, o, **k, d**

Listen to the Sounds: **dab, dim, kin**

Finger Tapping: **kit, sob, cob, dog, gag, pod**

Sound Out: **dig, bid, pig, dip, cob, Kim**

Phrases: **big fat cod, top of the rod**
 in the dim cab, on the log

Sentences: **The fat cod is on the big log.**
 The dog is on top of the rod.

2 Syllable Words: **ban/dit; cab/man; san/dal; dal/las**

Sight words: **for are to**

*** Rule:** *The letter 'k' comes before the letter 'i' - **'k' before 'i'***

SE - 7

Presented sounds: m, t, a, s, b, c, n, l, i, r, f, p, h, g, o, k, d,
j, x, e, v, z

Listen to the Sounds: **zax, fix, jag**

Finger Tapping: **jam, six, sox, box, keg, tax, hen**

Sound Out: **vim, jet, zip, beg, zap, fox**

Phrases: **jam for a pet , a red keg for a fox
men in a jet**

Sentences: **Jim met six big men in a jet.
Fix a pen for a red hen.**

2 Syllable Words: **kid/nap; nap/kin; pal/lid; ras/cal;
bas/ket**

Sight Words: **the, of, to, for, are**

*** Rule:** *The letter 'k' comes before 'e' - **'k' before 'e' and 'i'***

SE - 8

Presented sounds: m, t, a, s, b, c, n, l, i, r, f, p, h, g, o, k, d, j, x, e, v, z
w, u, y, qu

Listen to the Sounds: cut, pug, quip

Finger Tapping: web, yam, quit, win, sub, web

Sound Out: yak, rat, bet, rug, cub, fun

Phrases: in a hut, cut rug for a cub

Sentences: Del hid in a nut in a hut.
Bud can wag a fig at a red yak.

2 Syllable Words: vix/en, ban/yan; tid/bit

Sight Words: the, of, are, you

*** Rule:** The letter 'c' comes before 'u', 'c' before 'a', 'o' and 'u'

SE - 9

Presented sounds: ch, ck, sh, th, th, qu

Listen to the Sounds: chop; lick; thus; then; shag

Finger Tapping: chum; back; thin; shock; than

Sound Out: quick; pith; that; cash; munch

Phrases: chop a log;
lot of cash;
thick ham
to this

Sentences: Will you come to this hut?
A moth sat on a red rock.
The big ship sat at the dock.
The quick fox ran to get the dog.

2 Syllable Words: chest/nut; bath/tub; cat/fish

Sight Words: come

7 Vocabulary, Comprehension and Fluency (VCF)

Use of varied vocabulary by teachers challenges students to think and stimulate their curiosity and imagination.

Comprehension is understanding what is read. It is dependent on word recognition, vocabulary, and fluency.

Learning modules in this section provide various methods for developing and improving vocabulary and comprehension skills of the students.

Fluency is the ability to read a text accurately, automatically, and with prosody. It is important because it provides a bridge between decoding and comprehension.

The three important aspects of fluency are:

1. Accuracy – minimizing errors made while reading aloud
2. Reading speed or rate - the words per minute read aloud
3. Prosody – involves intonation, tone, stress, and rhythm

There are several ways to achieve fluency in reading. Some of the examples are cited in the Learning modules included in this section.

VCF-1	Multiple Meanings	
	Materials:	Multiple meaning words printed on cards* Pictures of words (Moose Materials) with the same spelling but different meanings.
	Aim:	To help children when reading words in context draw on their knowledge of words, which in turn expands word recognition and flexibility of meaning.
	Presentation:	Teacher: What does the word 'jam' mean? Tell me all the different meanings or uses of the word. For example: Jam: a kind of jam Traffic jam Jammed in a small place Jamming of a machine Jam with musical instruments If possible, show the pictures of additional meanings. The teacher makes up a sentence using the words. Student chooses the picture with the matching meaning.
	Extension:	Student can play games with *multiple meaning cards.

*See examples on next page 'VCF-1'

Multiple Meanings (VCF-1)

Bat	bit	tug
Fan	pin	gum
Pan	rip	pen
Jam	dip	miss
Ram	tip	well
Cap	pit	will
Lap	bill	tick
Tag	net	check
Pad	cut	neck
Pass	run	box
Mass	nut	can

* As taken from The Reading Teacher's Book of Lists by E B Fry and Moose Materials

VCF-2	Word of the Day	
	Materials:	List of words to be introduced.
	Aim:	To increase the student's vocabulary.
	Presentation:	Write the Word of the Day on the board. Discuss the meaning of the word. Use the word in a sentence. Ask the student to come up with a sentence as well. Have them keep a ring of 3x5 index cards in their desk to use in their writing. Or student can write word of the day in a journal.
	Extension:	Get a big jar or box that is marked "Word of the DAY". As the words are introduced write the new word on a piece of paper and put it in the jar/box. Review these words periodically. Let the student pull a slip out and read the word and give the meaning and a sentence.

VCF-3	Other Vocabulary builders	
	Materials:	List of other vocabulary builders*: Prefixes; Suffixes; Synonyms; Antonyms
	Aim:	To increase the student's vocabulary.
	Presentation:	Common prefixes, suffixes, synonyms, and antonyms could be introduced at this stage as and when required. Some examples are provided on the next page. Discuss the meanings of these. Write it on cards and review every week. Use the word in a sentence. Ask a student to come up with a sentence.
	Extension:	Get a big jar or box that is marked "Prefix/suffix/synonyms/antonyms." As these are introduced in class write it on a piece of paper and put it in the jar/box. Review them periodically. Let a student pull a slip out and discuss the meaning.

*See examples on next page **'VCF-3'**

Examples of Vocabulary Builders (VCF-3)

<u>Prefixes List</u>	<u>Suffixes</u>	<u>Synonyms</u>	<u>Antonyms</u>
Un	s, es	add	above
In	ed	back	add
Dis	ing	ask	back
Non	less	boy	bad
Mis	able	girl	before
Sub	ful	call	big
Mid		fix	buy
Re		end	break
Pre		ill	cheap
Super		job	clean
Under		sell	cold
Anti		leave	cool
Multi		look	true
Post		keep	fast
Pro		listen	finish
Uni		make	over
Bi		old	happy
Tri		right	huge
Quadr		say	inside
Pent		take	left
Centi		vast	play
Milli		walk	rear
Semi		world	stop

VCF-4	Reading a Book	
	Materials:	A story book
	Aim:	To introduce the student to new words.
	Presentation:	The teacher shows the cover of the book that is chosen. Ask the student what he thinks the story might be about. Read the story to the student. After reading, choose some of the words the student might not be familiar with and talk about the meaning of the words. This exercise helps the student expand his vocabulary. Read the book again.
	Extension:	Continue with a variety of books on different topics.

VCF-5	Read Diary of a Wombat	
	Materials:	Diary of a Wombat by Jackie French. Make a list of words that may be unfamiliar to the students. Then group them according to specific areas of the story. For example, Setting: Australia, hole Characters: creature, humans, wombat Problem: reward, invading, trained, boring Events: battle, dust bath Ending: trained, slept
	Aim:	To introduce students to a new set of vocabulary words
	Presentation:	Read “Diary of a Wombat”. Discuss the story with the student. Bring into the discussion the setting of the story, the characters, the problem, the events, and the ending . Write words on the board that the student comes up with that are new to him. At some point include the words you have on your list if the student does not mention them. Help the student place the new words into the different areas of the story that you have discussed. For example, the setting would include the words Australia and hole.
	Extension:	Use some of the new words in conversation in the next few days. Verbally review the new words. Words can be put on cards and made into a matching game or a memory game. Read other books using same procedure.

VCF-6	The Five Ws & How- Comprehension	
	Materials:	Sentences
	Aim:	To help student develop identifying the questions - 5Ws (<i>what, when, where, why, who</i>) and <i>how</i> of sentences
	Presentation:	Prerequisite for this activity is that the student must be able to repeat 5-7 word sentences. Begin with bare bone (2-3 word) sentences and slowly add up to 7-8 words. Teacher: Echo the sentence after me. <i>Jack ran.</i> Student: Echoes the sentence – <i>Jack ran.</i> Teacher: Who ran? Student: Jack Teacher: What did Jack do? Student: Run In the next sentence, add when, where, why questions adding one or two concepts each day. Teacher: Where did Jack run? Student: Jack ran to the pool. Teacher: When did Jack run to the pool? Student: Jack ran to the pool in the morning. Teacher: How did Jack run? Student: Jack ran quickly. Teacher: Jack ran to the pool quickly in the morning. Student: Echoes the expanded sentence.
	Extension:	Teachers can practice where, when, phrases before introducing these sentences. When phrases: Yesterday, tomorrow, today night, morning, afternoon; ; after, before, etc. Where phrases: at the store; in the house,

VCF-7	Comprehension Skills	
	Materials:	A book
	Aim:	To help refine understanding of the parts of a story
	Presentation:	Read a book. The teacher can discuss the following : What is the main idea of the story? What outcomes can you predict? What is the problem in the story? Can you identify the details? What is the sequence of the story? Describe a character. What words describe his/her feelings? What is the ending of the story? Did feelings change from beginning to end? How do you summarize the story? Cause/Effect or Fact/Opinion? Can you compare and contrast? What is the mood of the story? Where does it take place? Can you give some real-life examples? Student can act out the story. Student can tell story in their own words. Discuss the multiple meanings. Draw pictures for the story.
	Extension:	1. Read other books with or without words. 2. Some of these ideas that are used in most of the stories can be drawn and placed on a poster board. For e.g., pictures of a house, sky/tree to indicate outside, a boy, a girl, numbers to indicate the

VCF-8	Comprehension Dice Game	
	Materials:	A book A dice that has the words: character, setting, problem, events, beginning; ending, predicting outcome
	Aim:	To help refine understanding of the parts of a story
	Presentation:	Teacher: Reads a book. Student: Rolls the dice. Teacher: Reads the word rolled. Teacher and student discuss the area of the story that was rolled.
	Extension:	Read other books with or without words. In the beginning read short passages ideal for the younger student and slowly move on to story books.

VCF-9	Developing Fluency	
	Materials:	A book
	Aim:	To help students develop fluency
	Presentation:	Some methods to help with fluency are: Teacher models how to read; Student rereads loud the same; Student can read to partners; Give student books on tape; Student can record himself reading; Time the student and note accuracy and speed; note improvement by re-reading; Have student pretend to be tv/radio announcer; Teach proper punctuation; Practice Sight words reading by using games or flash cards; Poetry reciting, singing songs; Select words, sentences, short paragraphs, passages, short stories to match student's ability level. Fluency record keeping will help in improving speed and accuracy. Practice reading fluency every day for about five minutes.
	Extension:	

Appendix 1: Lesson Planning

Daily lesson plans consist of combinations of learning modules described in the main text. A daily lesson plan will include some of the following elements depending on the student's progress.

Phonological Awareness: 2 modules done daily (examples given below in the sample daily lesson plan)

Alphabet: Done daily from the beginning

Phonics: Starts after Phonemic Awareness

Letter Review: Starts after sound introduction. Each day, show keyword and sound card and ask the students to say it. Review letters covered .

Sound Review: Starts after sound introduction. Each day, give a sound, ask student to write the letter by echoing the sound and naming the letter after writing, for sounds covered.

Reading & Vocabulary: Starts when student is ready to read. Vocabulary done from the reading words and Word of the day

Handwriting: Done daily from the beginning

Spelling: Starts after reading begins

Comprehension: Done daily from the beginning

A lesson plan scheduler for a certain number of days may be prepared by the teacher since it would be helpful in creating a daily lesson plan.

In order to help the development of such a scheduler and daily lesson plans, examples of monthly (20-day period) lesson plan schedulers are provided in the sheets that follow. Sample daily lesson plans based on these templates for selected days (e.g., 10th day of each month for ten months) that track the monthly plans are also provided.

A template of a daily lesson plan is also provided.

Note that these are just sample plans, and the actual plans may be different since they will depend on the progress made by the student.

REMEMBER TO GO AS FAST AS YOU CAN
BUT AS SLOW AS YOU MUST

Appendix 3: Keyword/Phonogram Cards

The following pages contain content for creation of individual cards for presentation to students during the instruction phase as described in the lesson modules. It is recommended that these pages be printed on cardstock paper and individual cards be cut out from these pages.

Appendix 4: Materials List

General:

scissors;
glue stick

Listening Skills:

musical instruments (rhythm sticks, maracas, tambourine),
bell, whistle, rattle, sandpaper pieces, blocks

Rhyming:

Musical instruments;
3 circle and 1 triangle card;
5-6 red construction paper squares;
5 different color construction paper squares;
Bean bag/ball;
rhyme pictures;
9-square template,
rhyming pictures;
deck of rhyming cards

Words & Sentences:

Pictures for compound words (optional);
10 cubes (cubes represent words);
2 Bingo Cards

Syllables:

6 Rectangular colored foam pieces;
pictures with different number of syllables;

everyday objects like pen, pencil; eraser, etc.; syllable graphing paper; Unifix cubes/cubes;
2 Bingo cards

Initial sounds:

1 Mirror;
circle, triangle, cards;
sound pictures beginning with the same sound;
basket of objects for sound game;
card with 3 squares with a star on the top left;
3 counters/student (counters represent sounds);
pictures with cvc words;
assorted pictures from magazines /sound pictures;

Final sounds, Middle sounds:

Basket of objects/pictures with same ending

Combination Sounds:

Pictures of words with two sounds, 3 counters;
card with three squares and a star on the left square

Alphabet:

Alphabet mat;
1 blue Upper-Case letters;
1 red Lower-Case plastic letters;
1 set of purple vowels;
3 pipe cleaners to be cut into horizontal, vertical, full & half circle, diagonal and up-down shapes;
Alphabet dice

Phonics:

1 set sandpaper letters;
small bag for objects;
keyword and sound cards;
phonogram cards;
pictures for sounds;
foam sticks with letter names written on them

Reading:

5 sets of consonant and vowel letters;
5 sets of purple vowel letters;
pictures/objects with cvc words;
three squares card with star on the left square;
vc or cvc words written on small pieces of paper and folded

Handwriting:

Scissors;
push pins;
carpet squares;
newspaper strips;
different shape pipe cleaners;
chalk board/dry erase board;
newsprint paper/ plain paper;
chalk, crayons, dry erase markers, pencils; lined paper

Spelling:

Lined paper;
Pencil;
10 cubes;
6 rectangular colored foam pieces

List of potential suppliers for materials

Materials	Supplier
Cubes	ETA hand2mind plastic centimeter cubes
Foam pieces	S&S Worldwide AX822 EVA foam sheet assortment
Counters	Pangda 200 pieces colored plastic counters counting chips bingo markers storage bag math games (Yellow, Red)
Alphabet Mats (lower, Upper case)	ABECEDarian

Uppercase letters (Blue) Lowercase letters (Red) Vowels (lowercase) (purple)	ABECEDarian
Pipe cleaners	Acerich pipe cleaners chenille stems for DIY Art Craft decorations – 6mm x 12”
Sandpaper Letters	Lakeshore Learning

Glossary

Alphabetic Principle: It is the relationship between letters of the written language and spoken words.

Auditory Discovery: Discovery of new information is made by listening and responding to questions. E.g., discovery of a sound

Automaticity: Immediate recognition of words while decoding and comprehending what is being read.

Closed Syllable: It is a syllable that has one vowel followed by one or more consonants. The vowel in closed syllable is a 'short' sound.

Compound Word: A word that is made up of two or more smaller words that are combined to make a new word with its own meaning.

Consonant: A speech sound that is blocked by the tongue, teeth, or lips during articulation.

CVC: Consonant-Vowel-Consonant; A word that is made of a consonant, followed by a vowel and a consonant. These words are called 'closed syllables.'

Decoding: The act of translating printed word into speech.

Digraph: Two adjacent letters that represent one speech sound. It can be either two consonants or two vowels.
(e.g. ch, th, sh or ai, oa)

Dyslexia: It is a specific learning disability that is neurobiological in origin. It is characterized by difficulties with accurate and/or fluent word recognition and by poor spelling and decoding abilities. Secondary consequences may include problems in reading comprehension and reduced reading experience that can impede growth of vocabulary and background knowledge (Lyon, Shaywitz & Shaywitz, 2003).

Echo: Repeating the sound given by the teacher.

Encoding: To change spoken word into writing - spelling.

Fluency: Fluency is the ability to read a text accurately, automatically, and with prosody.

Grapheme/ phonogram: A written letter or letter cluster representing a single speech sound (e.g., t for /t/ or ch for /ch/)

Keyword: A picture of a word that represents a letter-sound association. It helps to unlock the student's memory of a speech sound and its connection to the letter which spells it. E.g. Apple /a/

Kinesthetic Memory: A voluntary motor sequence that can be recalled by students after repeated practice and training. E.g., memory of letter shapes, strokes, etc.

Letter cluster: group of letters that appear together in a single syllable. (e.g., sh, ng, igh, qu)

MSLE: stands for Multisensory Structured Language Education.

This approach incorporates the simultaneous use of visual, auditory, kinesthetic, and tactile sensory modalities to link listening, speaking, reading, and writing together.

Nonsense Words: These words are usually phonetic but have no meaning. (e.g., baf) - also called nonwords, detached syllables or pseudowords.

Onset: All the sounds in a word that come before the first vowel. (e.g., in the word 'cat' - /c/ is the onset.) A word may not have an onset. (e.g., 'it, at')

Phoneme: It is the smallest unit of sound that distinguishes one word from another. (/b/ of bat vs. /c/ of cat)

Phonemic Awareness: Phonemic awareness is the ability to **hear** the sounds that make up the spoken words and an ability to manipulate sounds in words.

Phonological Awareness: Phonological awareness is the ability to identify and manipulate units of oral language.

Phonics: Phonics is the relationship between the phonemes (sounds) and the graphemes (letters) that represent these sounds.

Prosody: This involves intonation, tone, stress, and rhythm in spoken language.

Rime: The first vowel in a word and all the sounds that follow. (e.g., in the word 'bit' - /it/ is the rime.

Sight word: It is an irregular word for reading and spelling and does not require decoding to identify. It must be memorized.

Skywriting: Two fingers (pointer and middle fingers) are extended to write large letters in the air while saying the name of the letter. The hand is stretched out, fully locked, in front of the student. This develops strong muscle memory.

Sound picture: A letter or letters written within the two slanted lines (/ /) represents the sound of the letter or letters. (e.g., /t/ or /map/)

Spelling Rules: these are principles guiding spelling. (e.g., c before a, o, u and k before i, e)

Syllables: They are units of sound said with one push of a breath. Each syllable has one vowel sound.

Unvoiced Sound: A speech sound that is made without vibration or buzzing of the vocal cord. Some consonants are unvoiced.

Voiced Sound: A speech sound that is made with vibration or buzzing of the vocal cords. All vowels and some consonants are voiced.

Vowel: A speech sound that is unblocked by the teeth, tongue, or lips. Vowels are voiced i.e., the vocal cords vibrate/buzz.
(a, e, i, o, u)
